WorkFusion

WORKFUSION ENTERPRISE

One platform, an unlimited digital workforce

Manage, teach and grow your Digital Workers through one automation platform

Request demo

Ready to put our Digital Workers to work for you?   Let's talk

Automate your complex workflows with a no-code/low-code approach. Simply drag and drop building blocks to create the Digital Workers you need.
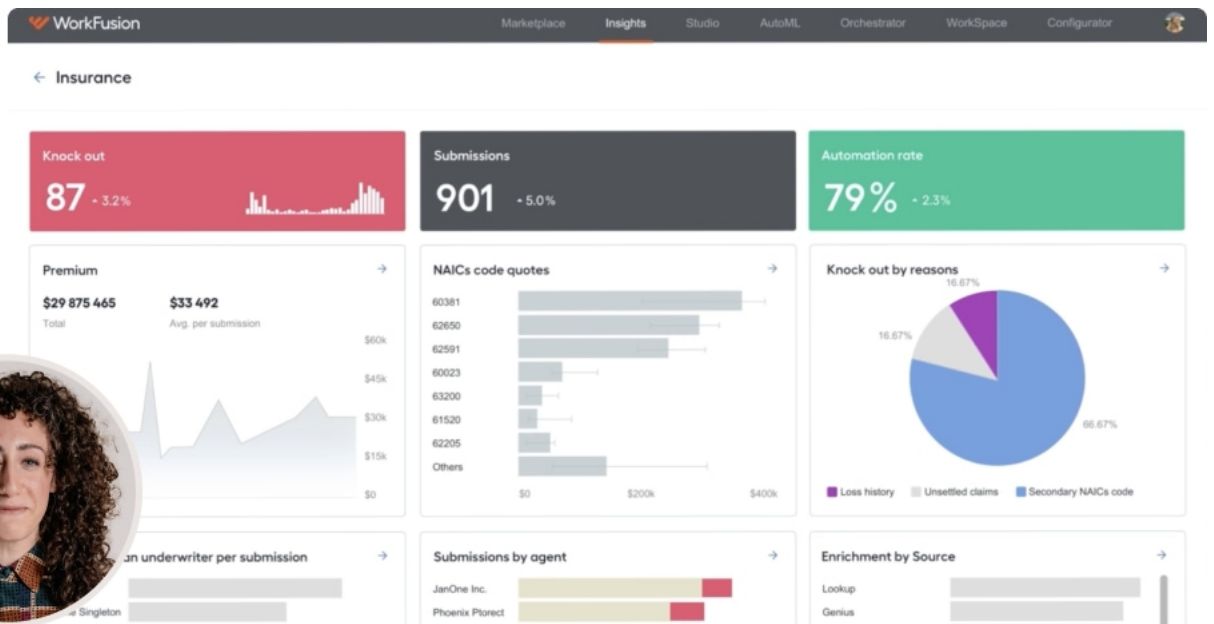

- ✓ pre-built steps and workflows for your core processes
- ✓ integration-ready, out of the box
- ✓ pre-trained models for complex unstructured documents

HUMAN-IN-THE-LOOP

Enable your team to collaborate with digital peers through Human-in-the-Loop

Handle one-offs and exceptions via the intuitive user-friendly interface, while teaching your Digital Workers how to handle new cases.

> Your Digital Workers become smarter with each new case, without coding or model training.

Monitor your Digital Workers' performance with robust Analytics tools

- ✓ Review progress, automation rates and process-specific KPIs
- ✓ Follow up on cases' status and progress of digital and real-world team tasks
- ✓ Compare your automation results with industry benchmarks

Ready to put our Digital Workers to work for you?   Let's talk

Documents are at the core of your operations — document intelligence is at the core of our platform

IDP document intelligence

Automate your document-heavy processes with industry-leading document intelligence

Process even low-quality and scanned documents with nearly 100% accuracy

Recognize signatures, handwriting, logos, checkmarks and other elements in unstructured documents

40+ language variations are supported!
