

What is Workspace 365?

 **Workspace365**

Everything simplified.

Workspace 365

At Workspace 365, we believe in simplifying the digital environment to help employees achieve their ultimate work focus. Our personalised digital workplace provides centralised access to all your necessary applications, company information, and personal documents.

We integrate everything into one interface, seamlessly connecting legacy and cloud applications to enhance collaboration and create a unified digital experience. With Workspace 365, you can access your workspace from anywhere, at any time, and on any device.

All in one platform: like never before

Our goal:
Unlocking your
ultimate digital work
focus

- **People first digital workplace solution:**
Designed from the eyes of the employee
- **Future proof:**
Preparing the path for everyday AI and continuous DEX

Our purpose

The problem

The IT landscape is overwhelming and complex: With an influx of applications, notifications, information scattered around.

That's why...

- In today's fast-paced digital world, the ability to concentrate and unlock work focus is a superpower for employees.

...so

- Simplifying this environment is the key to helping employees harness their full potential.

Our solution:

Simplify everything

...so that businesses can unlock their employees' ultimate work focus

Why

At Workspace 365 we simplify everything so that employees and businesses can unlock their ultimate digital work focus.

How

- We drive efficiency
- We remove IT complexity
- We unite
- We personalise
- We are game changers

What

All-in-one adaptive digital workplace that provides personalised access to all applications, company information and personal documents.

In detail

- Simplified access
- Simplified communication
- Simplified workflows

What our digital workplace does

Simplified Access

Hybrid

- Centralise access to all your apps ie. Citrix, VMware and Microsoft RDP
- Leverage conditions to give access to the right apps and information
- Streamline access to all documents, emails, appointment and contacts

Simplified Communication

Engage

- Updates on maintenance for all apps
- Company information through announcements in one view
- Master knowledge within different teams and offices through the Knowledge base
- Share and attend events on both team and company level

Simplified Workflows

Unify

- Provide approvals and updates in one overview
- Smart Global Search
- Open AI to connect all apps to a single interface

The teams we help

HR, People & Culture

- Enhanced onboarding/offboarding
- Improved engagement tools
- Foster collaboration
- Promote the company culture
- Create autonomous teams

Internal Comms

- Unified communication
- Collaboration features
- Role base content targeting

IT & Information Management

- Seamless integrations
- Digital transformation
- Improve DEX
- Aggregate data flow from any application
- Improve document management
- Maximise the value of the Microsoft stack

Our modules

Hybrid

The Hybrid module **focuses on IT and connects legacy systems with the cloud**, making hybrid work without IT frustration the new normal. With this module, you **increase user productivity**, regardless of time or location.

With a range of tools such as Citrix, ClientlessRDP, Azure Virtual Desktop, Fileserver, VMware, and Liquit, this module offers flexibility and efficiency without compromising security.

Flexibility and productivity

Engage

The Engage module **promotes engagement and ensures that employees stay connected, no matter where they are or what they are doing**.

Providing information flows, centrally, both from the organisation to employees and vice versa, and among employees, contributes to a high level of engagement.

Users can benefit from various functionalities, such as Events, Announcements, a Knowledge Base, Teams, RSS, Birthday, Yammer, Managed Signature, To-Do, SharePoint Integration, an Address Book Centre, People, Contacts – and even YouTube. This wide range of possibilities strengthens the bond between employees and promotes effective information sharing and collaboration.

Collaboration and engagement

Unify

With the Unify module, you **bring together all information sources, business data, micro-apps, and integrations** (e.g., AFAS Online, Zenya DOC, Vilans Kick, ConnectWise, Autotask, Zaaksysteem, Zermelo, TOPdesk, Nedap Ons, Magister, and OpenIMS™) in one interface.

This simplifies information flows, increases employee efficiency, and provides easy access to relevant information.

Efficiency

Tailored solutions for all

Workspace 365 offers personalised solutions for every company and employee, regardless of their phase in the digital transformation journey.

Flexibility and personalisation

We provide modular packages, selected based on user preferences, to address specific needs.

Enhancing the DEX

Workspace 365 provides the necessary tools, platforms, and environment to shape the Digital Employee Experience (DEX). It now learns from user search behaviour and delivers the right content.
