ScioliLink Cloud

Innovative online assessment and proctoring
solution for high-stakes exams

In-person admission examinations are costly in time and resources

TIME AND FINANCIAL CONSTRAINTS

The organisation of in-person examinations is logistically demanding; organisation of an examination for **2,000 candidates** corresponds to a time commitment of up to **1,000 hours**.

CANDIDATE ACCESS TO TEST CENTRES

Some candidates find it **time-consuming or costly** to get to the testing facilities and therefore find exams less accessible.

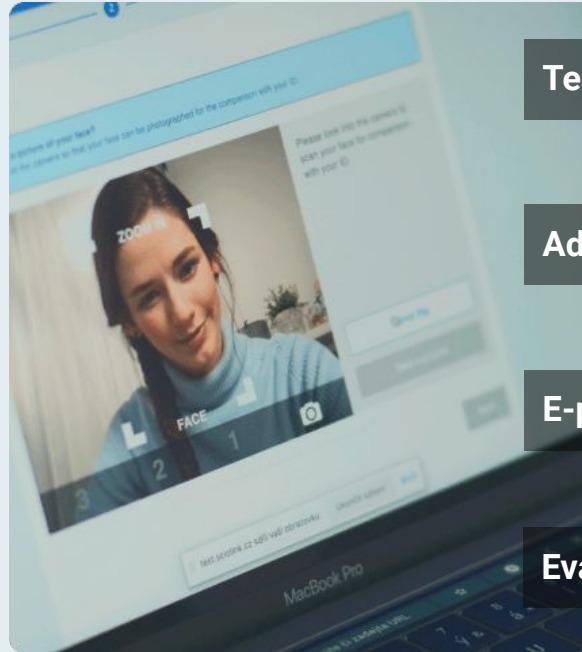

THE THREAT OF UNEXPECTED CRISES

The COVID-19 pandemic made us aware of the volatility of our system. **Unexpected crises** can slow down or even cancel traditional attendance tests.

ScioLink is an end-to-end online assessment tool for the digital age

ScioLink is a **web based online tool** which allows universities to **conduct tests and exams in the online environment**, while making sure **students are not cheating**.

While our software is based on machine learning algorithms, we involve human evaluators and put the **safety and privacy of students first**.

Test preparation

- Create your own tests or use our database

Administration

- Arrange invitations for applicants

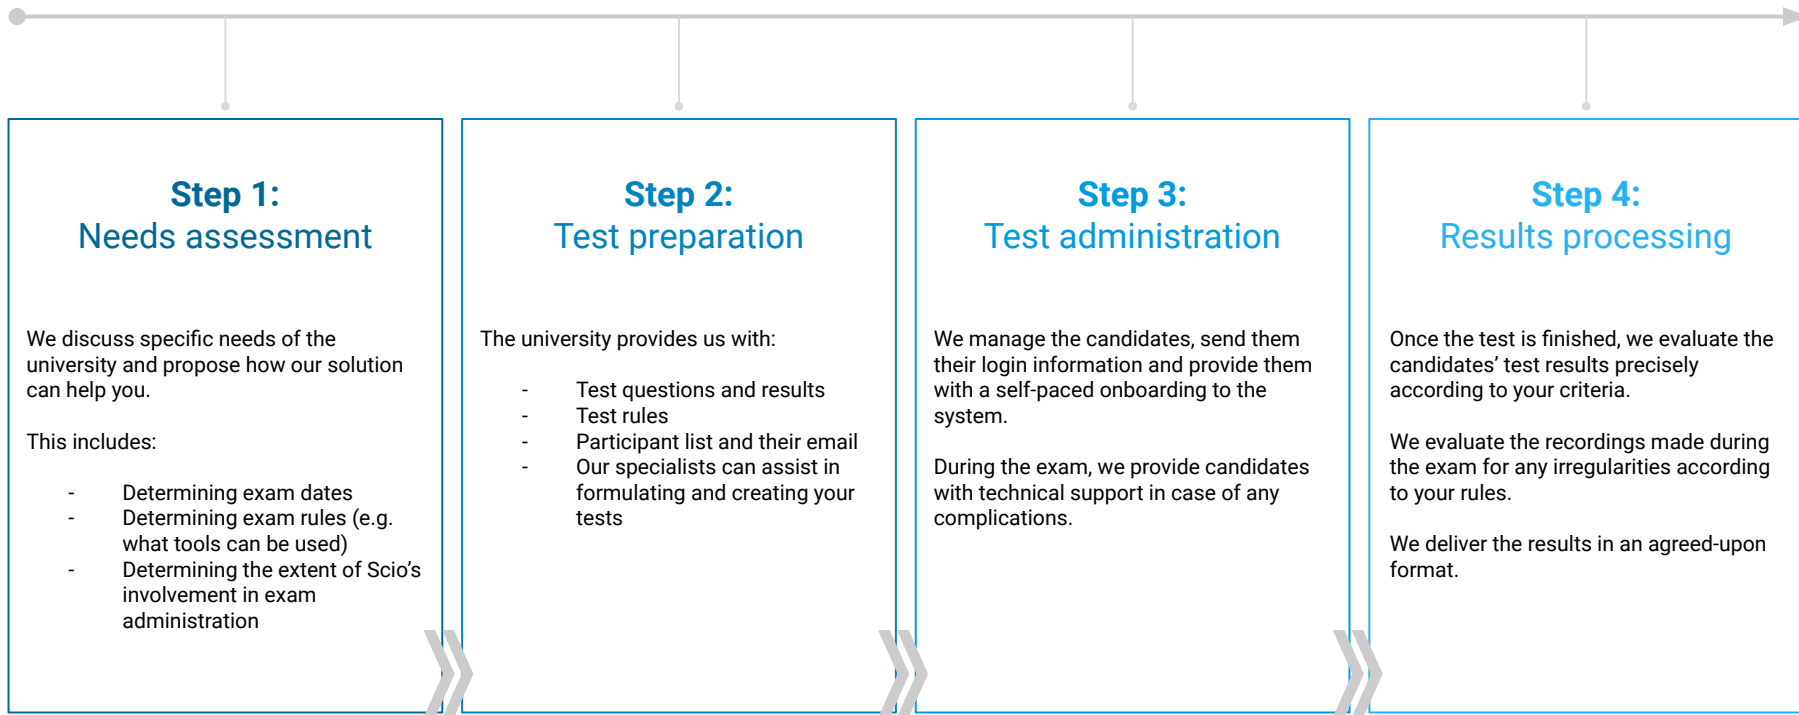

E-proctoring

- Assure regularity of the exam

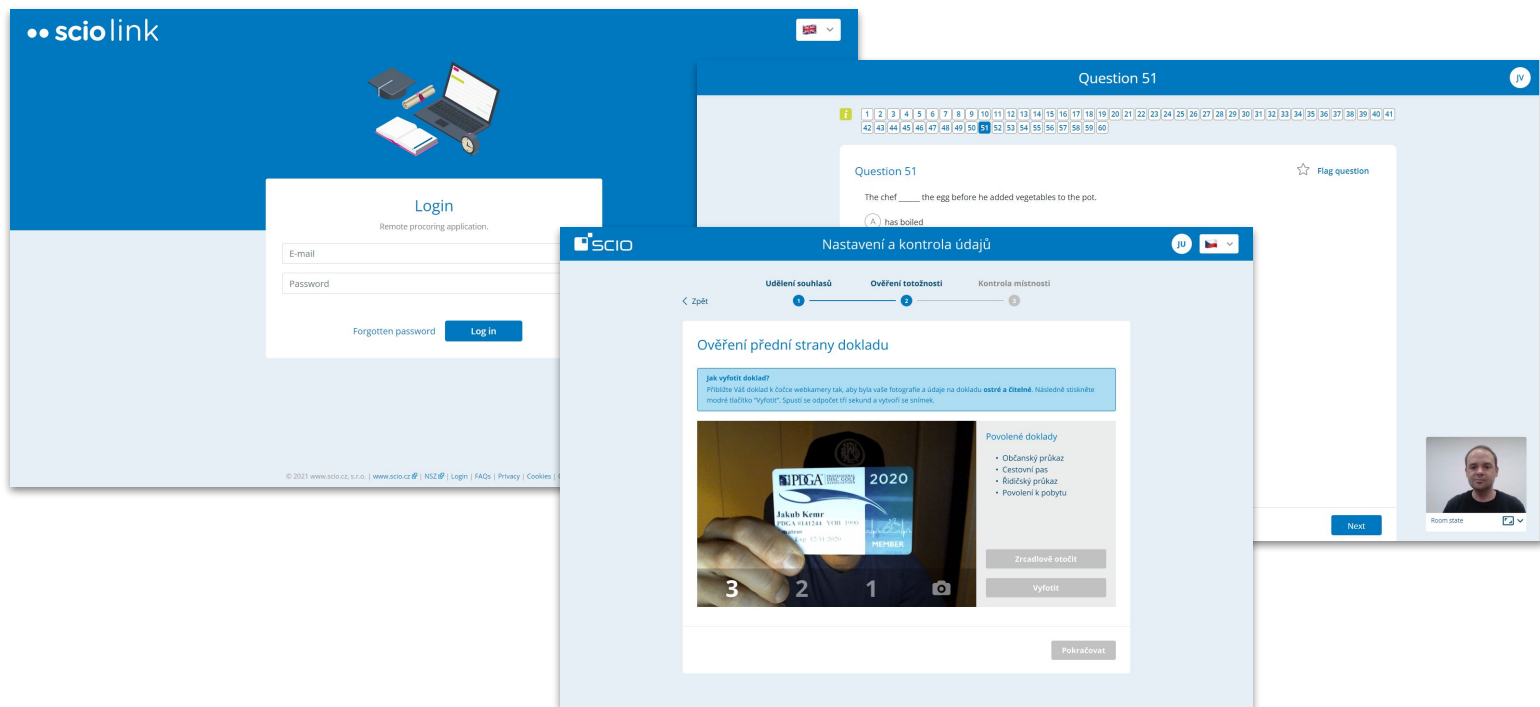

Evaluation

- Receive exam results

We support our clients throughout the testing process

The testing environment is easy to use and allows for a smooth exam process

Safety and comfort of test-takers is our highest priority

01 Data Protection

We minimise the volume of data and personal data that needs to be processed for the purpose of assessing exam regularity.

03 Human Control

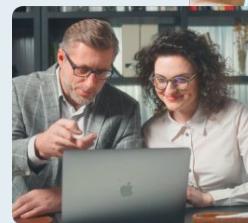

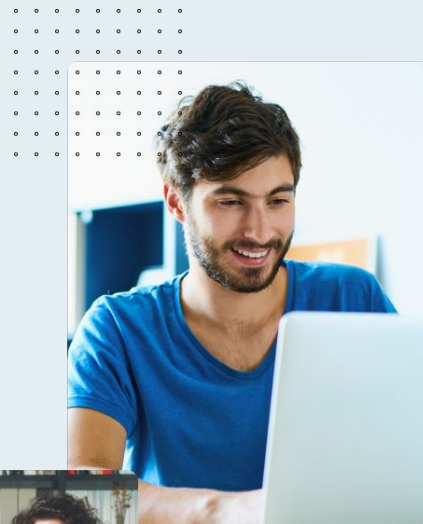

Behaviors flagged by our algorithm as irregular are always revised by an independent human assessor.

02 Smoothness and Safety

We do not interfere with the students' computers, we only monitor them. We do not shut down running applications.

04 Privacy Protection

Although we use modern technologies, we do not work with biometric data and do not collect it.

Our per test pricing depends on the amount of tests taken (example for 500 exams)

Simple and reliable Testing application, ID check, Proctoring	Verified and transparent Testing application, ID check, Proctoring	Secure and proctored Testing application, ID check, Proctoring
✓ Online resilience – system stability even during an internet outage ✓ Onboarding – the ability to try out the test environment a month before the exam ✓ Multilingual support – the application is in the applicant's language ✓ Variable question types – open and closed questions, multiple choice, matching, labelling in an image ✓ Multimedia – audio and video questions ✓ Integrated in-app calculator ✓ The ability to make additional materials and resources available to candidates directly in the application	✓ Everything in the previous package ✓ Identity verification ○ ID card photo ○ A photo of the candidate ○ Candidates can blur information on the ID that isn't necessary for identification ○ Candidate identity checked by a human	✓ Everything in the previous package ✓ A room scan prior to the exam to check the integrity and security of the environment ✓ AI analysis of the video and sound recording made during the exam to check whether any rules were broken. ✓ AI analysis of the candidate's screen to check for use of prohibited applications or resources. ✓ Human evaluators check all recordings for any irregularities
9,00 € / participant	12,00 € / participant	14,00 € / participant

Our team brings years of experience in testing and innovative technologies

WHY US

- Scio is a Czech educational company with **20 years of experience** in the market.
- We are a pioneer of **standardized testing** in the region.
- We cooperate with majority of **Czech and Slovak faculties** and provide them with both in-person and online admission and other exams.
- Each year, we conduct more than **50,000 in-person tests and more than 30,000 online tests**.
