

AI-Enabled Hybrid Interviews and Assessments On Demand

- Hybrid questions (text, video, or MCQ)
- Anti-cheat capabilities
- Fixed or randomised questions
- AI-enabled transcripts
- Set timers and parameters
- AI-driven analytics
- Candidate retakes
- Available in 72 languages
- Collaborative reviewing

XOPA ROOM

Video Transcripts and Content & Tone Analytics

Anti-cheat/Proctoring

- ROOM will capture the screen that the assessment is being done on so there is no way for someone else to take the assessment on the candidate's behalf or for the candidate to toggle between screens.

Just Plug & Play

- Integrates with most applicant tracking systems, CRMs and other platforms
- Integrates with Microsoft Teams for both on-demand and live interviews with candidates

AI-Driven Analytics

- Derive insights such as emotion and language analytics
- Generate automated pass/fail scoring and rankings for easy assessment

In-built Smart Automation

- Review one-way recorded candidate answers at your convenience
- Import and assess candidates in bulk

Easily Shortlist & Reject
