YOUR EXPERTS FOR AGILE SOLUTIONS

## Microsoft Dynamics 365 Solution Assessment

*Is Your Setup Future-Proof?*

We help you identify blind spots,  
reduce risks, and unlock potential  
– with a structured check of your  
Microsoft Dynamics 365 Finance and  
Supply Chain environment.

Many companies use  
Microsoft Dynamics 365  
Finance and Supply Chain – but live  
with hidden inefficiencies,  
outdated customizations, and  
unclear system ownership.

We help you turn complexity into  
clarity – and create a foundation  
for confident decisions.

# Get the Full Picture

Many companies use Microsoft Dynamics 365 – but few unlock its full potential. Our Solution Review provides an objective analysis of your existing Dynamics 365 F&SCM setup – technically, functionally, and strategically. The goal is to create clarity, identify risks, and uncover optimization potential – serving as a solid foundation for further development or a partner change.

## TRACK 01

### PROCESS REVIEW.

Gain clarity on processes and process architecture.

## TRACK 02

### TECHNICAL DEEP DIVE.

Evaluate setup, infrastructure, security, scalability, and system health.

## TRACK 03

### CODE & CUSTOM REVIEW.

Analyze customizations for maintainability and future-readiness.

## KEY QUESTIONS WE ADDRESS

- ? Is your setup aligned with best practices?
- ? Where can you improve or automate processes?
- ? Are there technical, organizational, or compliance risks?
- ? Where could AI add real value - and are you technically ready for it?
- ? Are your custom developments future-proof?

---

## WHAT YOU GET

- ✓ Management report with key findings and recommendations
- ✓ Presentation with deep dive into top priorities
- ✓ Optional: Perspective on AI-readiness and how to unlock its value within Dynamics 365

## WHO SHOULD CONSIDER THIS?

- ✓ Companies already using Dynamics 365 but facing inefficiencies or uncertainty
- ✓ Organizations seeking clarity on system quality and potential
- ✓ Teams looking to future-proof their Dynamics 365 investment

## WHAT HAPPENS NEXT?

The engagement is performed directly within the customer's existing Microsoft Dynamics 365 Finance and Supply Chain environment. It primarily leverages standard configuration, security, and process capabilities of Dynamics 365 Finance.

Based on the Solution Review findings, we provide tailored recommendations – and, if desired, a clear roadmap for next steps.

---

# Why xalution?

## Who We Are

xalution is a certified Microsoft partner and Cloud Solution Provider (CSP). We specialise in solutions for following industries:

- Sports & Fashion
- Medical & Healthcare
- Industry, Utilities & Media
- Food & Fresh Produce

With Microsoft Dynamics 365 at the core, we drive digital transformation through ERP, process optimisation, and Power Platform innovation.

## What We Deliver

- End-to-end Microsoft solutions (ERP, BI, Power Platform)
- Strategy-first implementations
- Clear roadmaps for process improvement & digital growth
- Proven success in complex international programs
- Focus on measurable outcomes, future-readiness & efficiency

We turn business complexity into scalable, intelligent systems – ready for tomorrow.

## What Sets Us Apart

As an owner-managed company, we think long-term and act fast. Our 140+ experts deliver results in 10+ languages through close collaboration, flexible engagement models, and quick response to change.

## Our Footprint

From our offices in Germany, Switzerland, Czech Republic, Poland, and Slovakia, we lead cross-border projects – reliably and efficiently, even under complex conditions.
