XENIT VIRTUAL WORKSPACE

Xenit Virtual Workspace is a cohesive solution providing a digital workplace for your end users. We design, develop, maintain and update your digital workspace to a fixed monthly cost. With our long experience of virtual workplaces, we set up a platform or take over an existing platform to integrate it into Xenit Virtual Workspace. The result is a world-class digital workplace for your employees!

XENIT VIRTUAL WORKSPACE

CLIENT NEED

An easy, mobile and flexible digital workspace.

SOLUTION

A virtual workspace in the cloud with life cycle management and support.

RESULT

A scalable solution with predictable costs that gives your end users access to their programs and application no matter when, where or from which device.

Price: From 220 SEK per user and month

3 REASONS WHY YOU SHOULD CHOOSE **XENIT**

- 1.** With Xenit Virtual Workspace, you get access to leading competence and specialists in the forefront of virtual desktops.
- 2.** You don't have to think about management, updates and development of the virtual workspace, we take care of all of that for you!
- 3.** It's easy to scale up when you hire or make sure a brand-new team gets a desk with the programs and permissions they just need.
