

Xenit Virtual Workspace

Work from anywhere, at anytime and any device in
Microsoft Azure

Xenit Virtual Workspace is a cohesive solution providing a digital workplace for your end users. We design, develop, maintain and update your digital workspace to a fixed monthly cost. With our long experience of virtual workplaces, we set up a platform or take over an existing platform to integrate it into Xenit Virtual Workspace. The result is a world-class digital workplace for your employees!

3 REASONS WHY YOU SHOULD CHOOSE XENIT

1. With Xenit Virtual Workspace, you get access to leading competence and specialists in the forefront of virtual desktops.
2. You don't have to think about management, updates and development of the virtual workspace, we take care of all of that for you!
3. It's easy to scale up when you hire or make sure a brand-new team gets a desk with the programs and permissions they need.

? Client need

An easy, mobile and flexible digital workspace.

✓ Solution

A virtual workspace in the cloud with life cycle management and support.

📊 Result

A scalable solution with predictable costs that gives your end users access to their programs and application no matter when, where or from which device.
