## Xenit Azure Starter Packs

# WITH AZURE **MIGRATION**, YOU WILL GET:

- ✓ Together, we will lay the foundation for your optimized cloud journey. We will do the basic installations of Azure and migrate an actual workload, in our outside of production.
- ✓ Your IT-professionals will get higher competence within the area through education, workshops, and evaluations.
- ✓ Your IT-department will have more time to focus on developing your core business. In Azure, you will get an efficient application management, high security, backups, analytics tool and much more.
- ✓ Your organization can reach its sustainability goals in the cloud. Microsoft cloud services in their Swedish data centers is up to 98% more carbon dioxide efficient than traditional data centers.
- ✓ Your end users can feel safe with Azure's high security. Azure comes with built in multi layered security controls and unique threat information.
- ✓ Your IT-department can easily control its costs. For example, if the number of users decreases, the costs sink as well. Moreover, the more users you get, the cost per user decreases.

OFFER

# XENIT AZURE MIGRATION

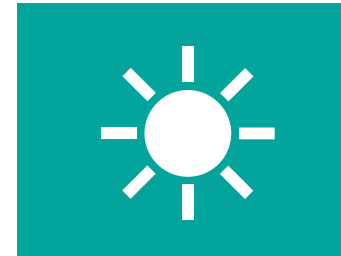

## CLIENT NEED

You need to kick-start your cloud journey but struggle with question such as which workload you should lift? How to do it in a controlled manner? And what will the cost be?

## SOLUTION

A hands-on project with Azure implementation and basic installations combined with education and workshops based on your environment.

## RESULT

An understanding of how your Azure environment is managed and a framework with correct security and structure. You will also receive an overview of the costs for further development.

Price: From 95 000 SEK or sponsored by Microsoft.
