

Assessment for Cloud-Native Application Modernization

Use the power of the cloud to transform your business.

Don't just migrate.

Assess your applications for the cloud to fully leverage its benefits. Modernize to ignite growth and outperform competition.

Your business is unique. So should be your cloud journey. In 6 weeks, we conduct an in-depth analysis of your IT environment to help you understand your application landscape and provide you with a migration strategy aligned with your business goals. Get the most out of your move to Microsoft Azure.

Empowering your move to cloud

After delivering a comprehensive strategic roadmap for your cloud journey, XLAB implements the migration and conducts immersion workshops that equip your professionals with the skills to fully exploit Azure technologies on their own.

Benefits of Application Assessment

Understand your IT environment

Identify cost and performance optimization opportunities

Determine the best migration strategy for your business

Get data-driven insights:

- infrastructure and application assessment
- TCO evaluation
- cost-benefit analysis

Optimize performance:

- maximize the use of resources
- speed up delivery
- increase agility, scalability, security

Plan and prioritize:

- lift-and-shift, update later
- re-host, refactor, rebuild, rearchitect
- eliminate legacy applications

About XLAB

XLAB is a global IT solutions company focused on remote desktop technology (ISL Online), management and automation of hybrid infrastructure (XLAB Steampunk), and data analytics, building on breakthroughs of its own research team.
