# Cloud Readiness Assessment

Moving to the cloud isn't for everyone, and it's better to find out before than afterwards. Our Cloud Readiness Assessment will look at what you're currently using, what you could use, and what the benefits would be to your business and budget.

Our Cloud Readiness Assessment is your **first step** to a **successful cloud journey**.

Planned & Prepared

Many companies encounter stumbling blocks on their cloud migration journey due to their lack of preparation. Our Cloud Readiness Assessment examines your estate's readiness for the cloud by reviewing all key cloud requirements; architecture, performance and operations.

- Evaluate Storage and Database Needs

- Review Resource Usage

- Explore Licence Options

- Analysis Costs & Projections

- Assess Cloud Platform Options

- Conduct Compatibility Tests and Trial Migrations

Our review identifies any areas of concern and generates an action plan for effective cloud migration. We assemble all the information so you can make an informed decision and avoid making costly mistakes.
