

Xylos Managed Desktop

Xylos

Replace your existing Remote desktop solution

Challenges

Your existing Remote Desktop solution needs to be replaced due to Hardware or OS replacement.

- **Secure Windows 10 user experience**
- **Only way for Windows 10 multi-session experience**

Ideal Solution

- **Flexible and less complex**
- **Windows 10 experience**
- **Cost effective**

- **Future proof without the burden of the server hardware overhead**
- **Simplified management**

Desired Outcomes

- **No more upfront hardware costs**
- **Pay what you use**

- **Shift from Capex to Opex with our Managed Desktop solution**
- **Increase efficiency**
- **Scale down or stop when the contract is over**

How mobile professionals can optimize their work!

Xylos

Challenges

Mobile professionals can have more than 3 devices to accomplish their job, all with different challenges.

- **Secure access to (legacy) application**
- **Secure access to your desktop**
- **Easy Windows 10 adoption**
- **Ease of one device**
- **Prevent data loss**

Ideal Solution

- **Unified experience on different platforms**
- **Secure access to hybrid company data**
- **Easy end user adoption**
- **Always up to date**

- **Future proof without the burden of the server hardware overhead**
- **Deploy and scale in minutes**
- **Flexible management**

Desired Outcomes

Mobile professional with managed devices connecting to your Managed desktop.

- **Shift from Capex to Opex with our Managed Desktop solution**
- **Increase efficiency**
- **More focus on your core business**

Secure remote access for your Contractors

Challenges

Remote access is often given to contractors for your entire network.

- **Secure access to specific application/part of your network**
- **Ease of one device**

Ideal Solution

- **Secure access to a specific part of your network**
- **No more hardware provisioning**
- **Always in control**

- **Future proof without the burden of the server hardware overhead**
- **Simplifies**

Desired Outcomes

- **No need to provide hardware to contractors**
- **Only access to what they need.**

- **Shift from Capex to Opex with our Managed Desktop solution**
- **Increase efficiency**
- **Scale down or stop when the contract is over**
