

Artificial Intelligence augmenting Human Intelligence

www.uptroop.io

UpTroop is an AI-powered platform designed to enhance employee efficiency and performance by bridging the gap between knowledge and action. Utilizing the proprietary Y.O.D.A - the On-Demand Knowledge ally, UpTroop converts static knowledge into interactive, bite-sized learning experiences, seamlessly integrated into daily workflows via platforms like Slack and MS Teams.

Key Features:

1. **Y.O.D.A GPT - Content Creator:** Uses AI to organize and transform complex documents into tailored skilling paths.
2. **Y.O.D.A - Efficiency Guide:** Delivers relevant knowledge capsules and insights directly to employees, reducing cognitive load and enhancing real-time decision-making.
3. **Y.O.D.A - Efficiency Analyst:** Provides detailed, real-time insights into employee performance and knowledge application without the need for exhaustive data management.

Impact and Metrics:

- **Customer Satisfaction:** 94% satisfaction rate with a 90% engagement level.
- **Improved Retention:** Knowledge retention increased by 46%.
- **Time Efficiency:** 37% reduction in time to acquire new skills.

Highlights:

- 2000+ unique role-based learning journeys created.
- 100% repeat customers, highlighting the platform's effectiveness and irreplaceability.

UpTroop's innovative approach to skilling and knowledge management makes it a vital tool for organizations seeking to enhance workforce efficiency and productivity.
