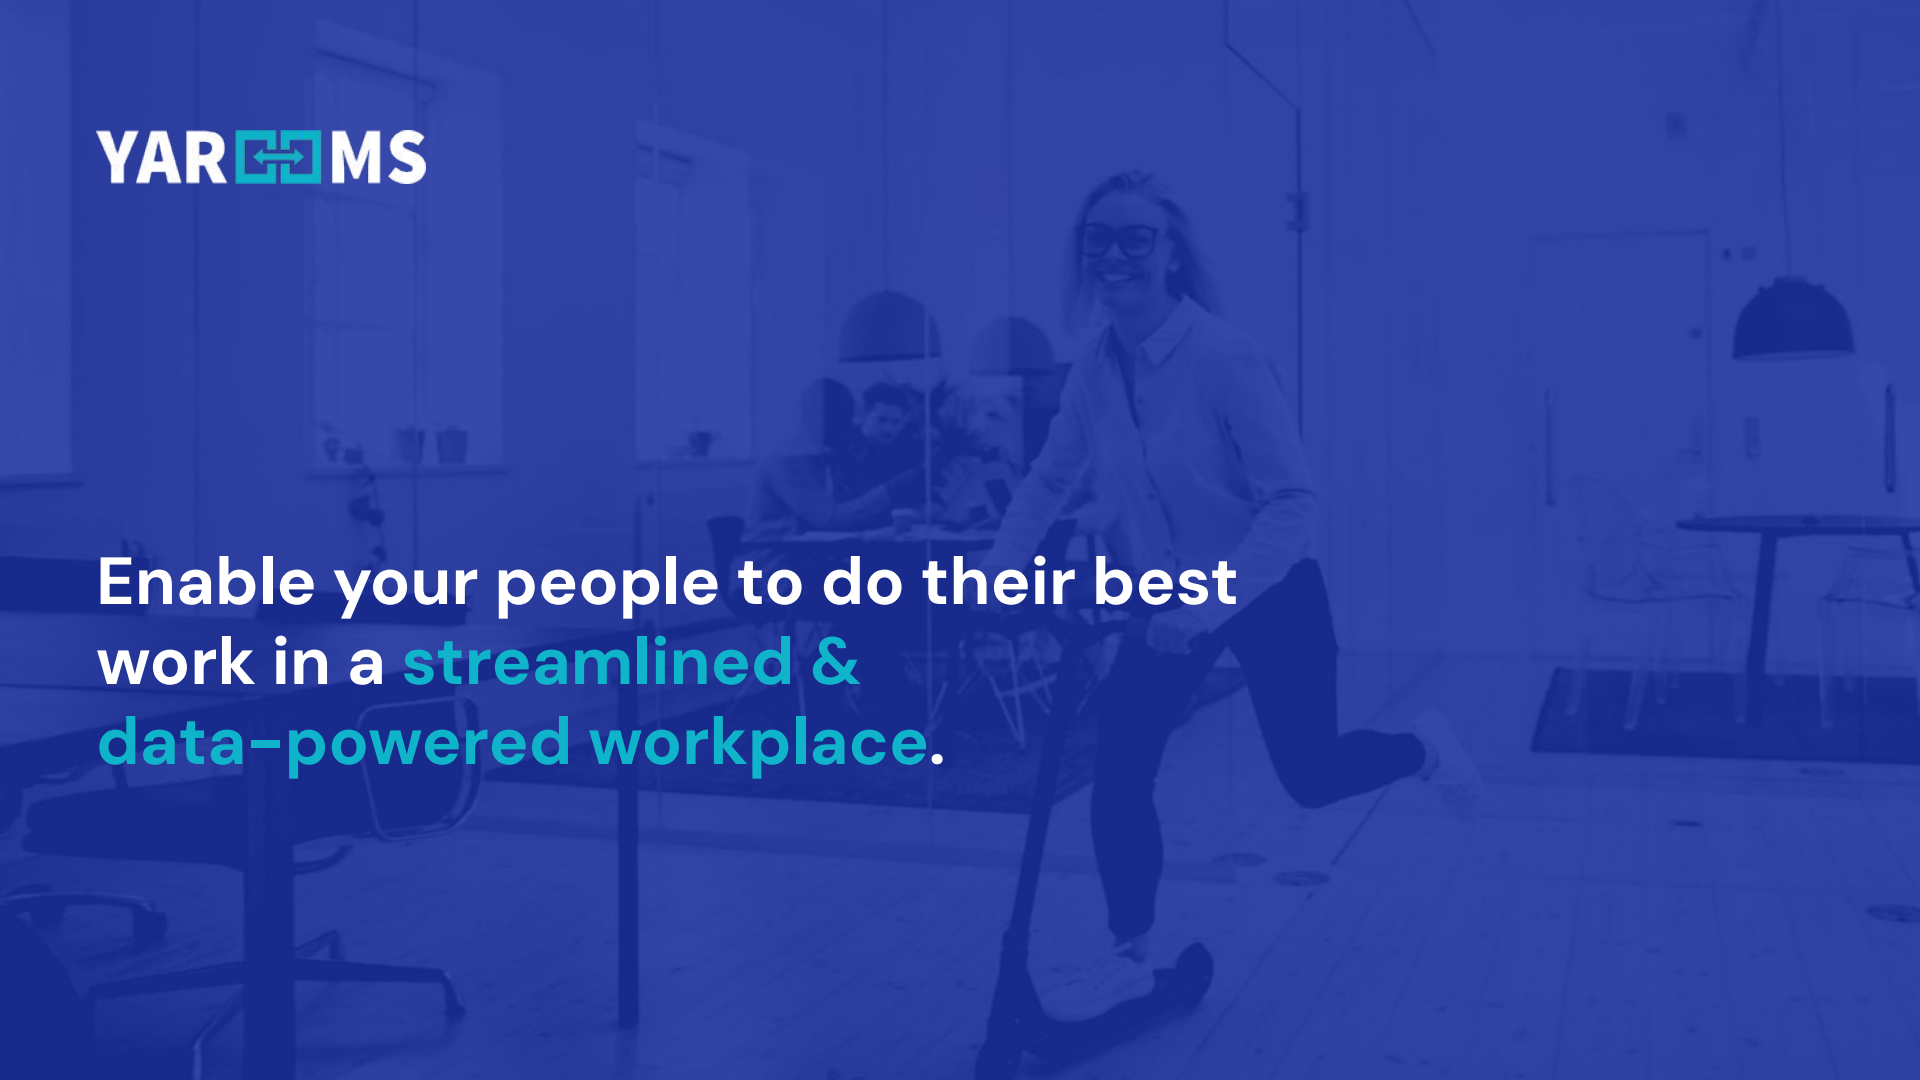
YAROOMS



Enable your people to do their best work in a streamlined & data-powered workplace.

Company Overview

At YAROOMS, we are firm believers in the potential of businesses to make a positive impact on the world - and we are all about empowering companies to achieve it by creating amazing workplace experiences and fulfilling their net-zero goals.

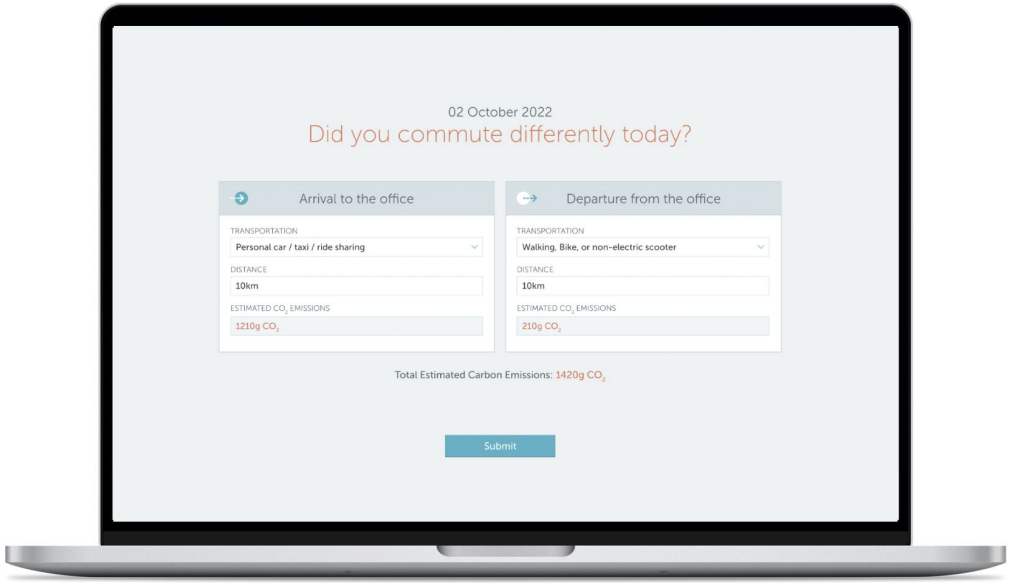
The YAROOMS Workplace Experience Platform is your one stop shop for a truly future-proof workplace. We offer seamless hybrid work planning, desk & room booking, visitor management, and workplace CO2 tracking solutions.

Customer-voted market leader committed to changing the way we work

YAROOMS
Welcome to YAROOMS

Employee commute profile

Make small changes that have a **big impact**.

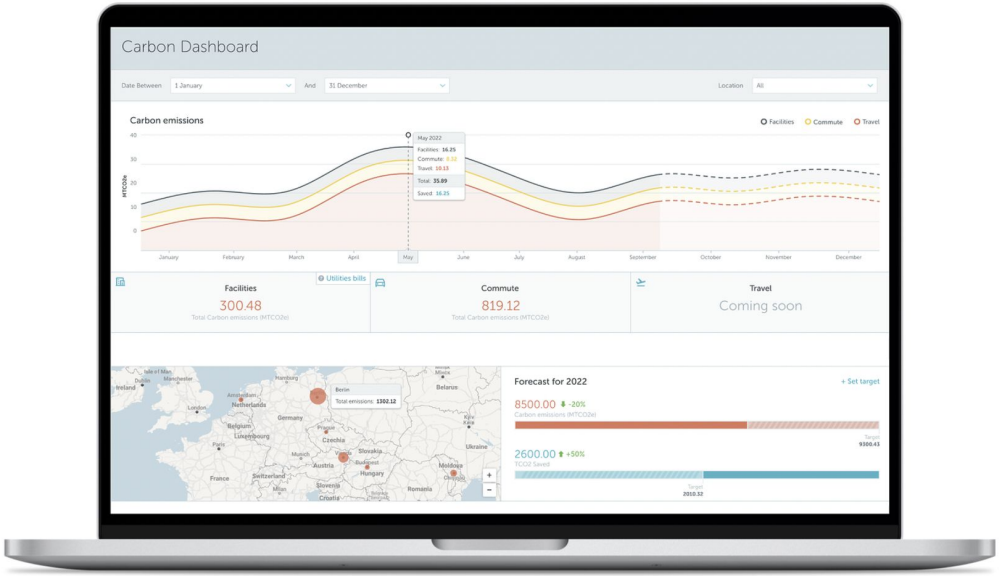


Using the YAROOMS commute profile, employees can save their regular commute details (for example, what is the distance they travel daily or what are their means of transport) and change them if they chose a different commute method.

The aggregated commute emissions data appears on the carbon dashboard so companies can track them and incentivize employees to reduce their footprint.

Carbon dashboard

Use data to drive **sustainable** change.



Monitor and report on your workplace's CO2 Scope 2 and Scope 3 emissions. Estimate the future use of office resources (such as water, electricity, or gas), understand its carbon footprint, and track your progress in reducing it.

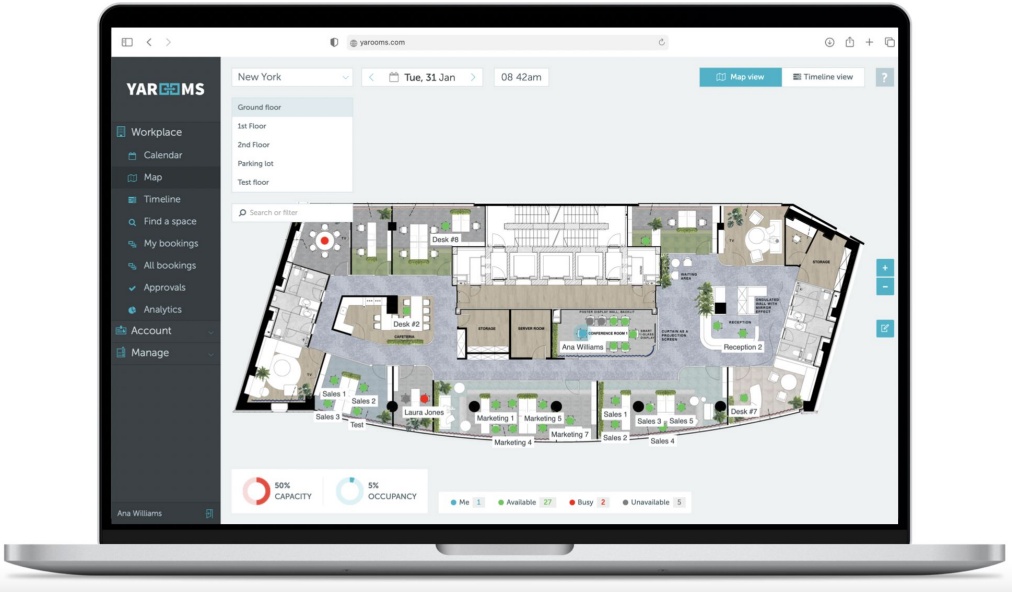
To keep the data accurate, it is possible to enter utility bills or meter readings onto the platform as well as to indicate consumption patterns for different time periods (for example, no heating in summer months or no water usage on weekends).

"Tracking work-related carbon emissions is the first step in what is going to be the new class of workplace software - one that prioritizes goals and gives employees the freedom to actively contribute to them."

Dragos Badea, CEO and Co-Founder, YAROOMS

Desk & room booking

Flexible booking tools for a **flexible workplace**.



Multiple space types

Desks, meeting rooms, parking spaces, or even custom areas: make all your workspaces bookable.

Interactive floor map

Navigate your office in real-time. Look up desks, desk booking features, or colleagues. Instantly locate your search results in the office.

Check-in functionality

Confirm your presence in the office in a fast and convenient way. Free up reserved spaces in case of a no-show.

Workplace analytics

Gain insights into how workspaces are used and optimize your office with data-driven decisions.

Yarvis

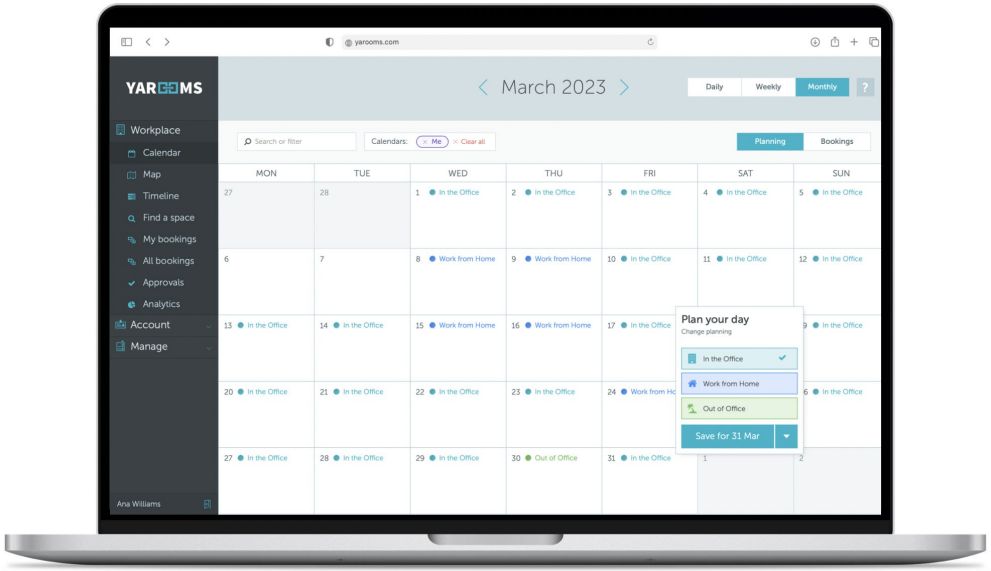
The AI-powered workplace assistant

Leveraging generative AI, Yarvis can understand and fulfill various requests within seconds, including:

- Searching for available workspaces based on specific criteria.
- Providing detailed information about personal or team schedules.
- Analyzing booking lists and responding to related inquiries.
- Applying various filters (such as date and space type) to refine booking searches.
- Answering help queries to minimize time spent by users in getting support

Hybrid work planning

All hybrid work planning in **one calendar view**.



Autonomous planning

Everyone can create their hybrid work schedule by themselves. Group managers can bulk plan on behalf of their teams.

Planning intervals

Save your planned hybrid work schedule for a day, a week, or a month.

Space booking

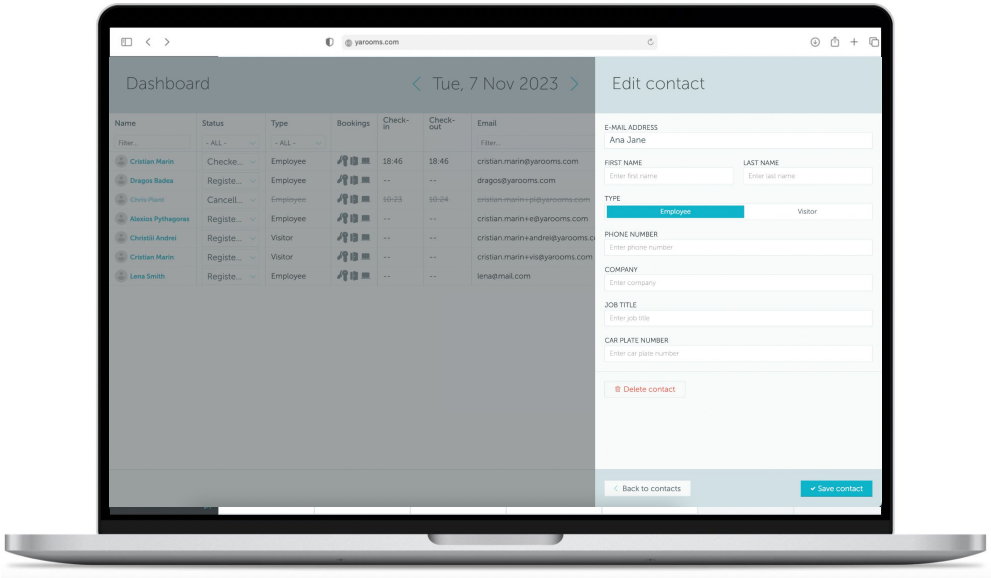
Book a desk for the days you work at the office.

Planning and work from home thresholds

Establish planning (how much time ahead the group must plan) and work from home (how much time a group can work remotely) thresholds.

Visitor management

Manage guest records & ensure workplace security.



Visitor pre-registration & registration

Hosts can pre-register guests in the visitor management system. Visitors can also easily register themselves using digital reception app.

Arrival notifications

Arrival notification is sent to the host employee as soon as the visitor is registered at the front desk.

Multi-location settings

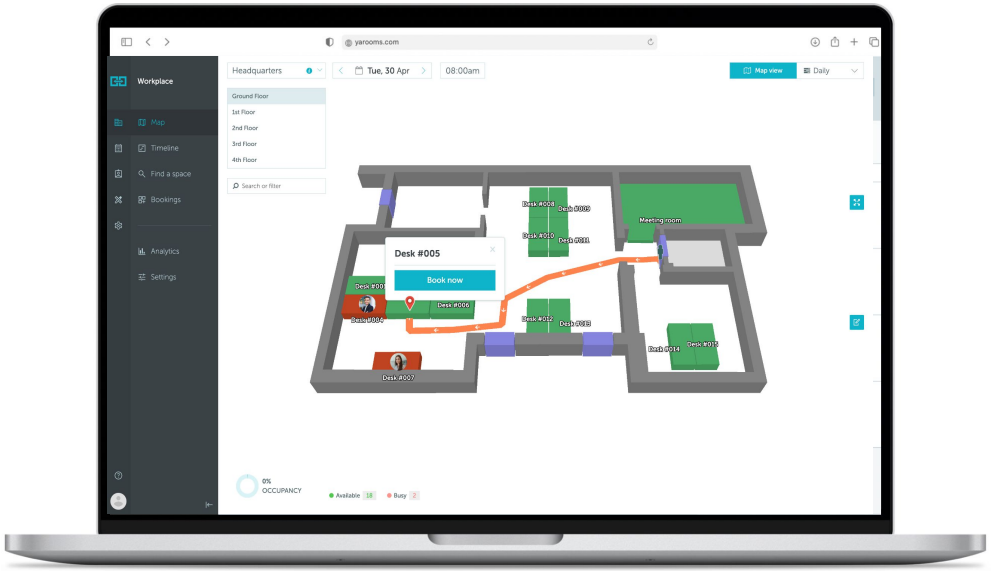
Adjust settings for each location to suit the different visitor policies across multiple offices.

Visitor management analytics

Gain visibility into visitor traffic, host information, or check who was in the building on a particular date. Easily export data with just a few clicks.

Wayfinding

YAROOMS x mappedin

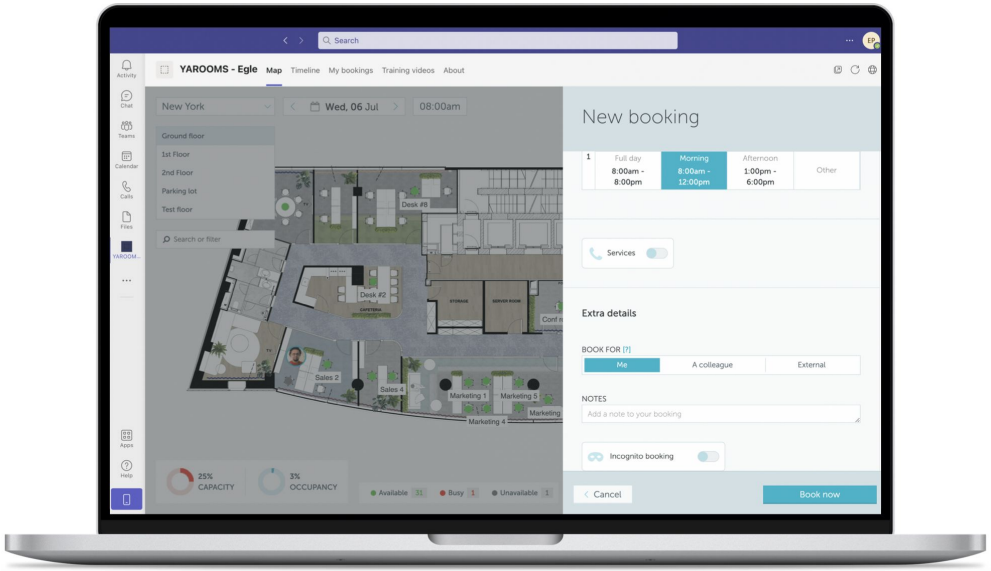


Yarooms Workplace Experience Platform, integrated with Mappedin's digital indoor mapping technology, provides accurate real-time navigation within the office space.

- ✔ Smart and interactive office floor map
- ✔ Easy-to understand wayfinding directions
- ✔ Dynamically adjusted information
- ✔ Accessible on multiple devices

YAROOMS & Microsoft Teams

Your workplace, in **Teams**.



Effortless set up

Install YAROOMS booking software as a Teams channel tab or a personal ribbon app and make it available to your entire user base in minutes.

Immediate availability

Organizations with access to Microsoft Teams add-in can immediately book rooms, desks, and other spaces, or check-in to signal presence.

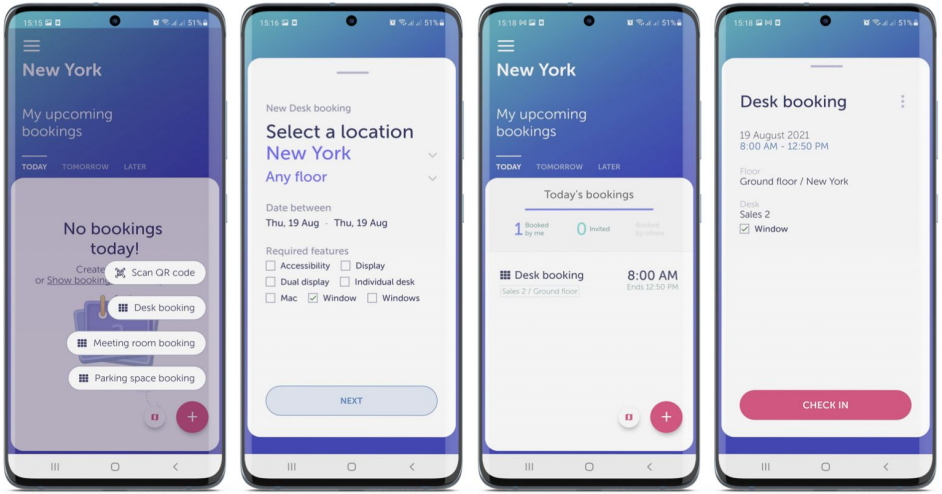
Intuitive user experience

No prior training is needed to navigate YAROOMS in the familiar Microsoft Teams interface. Office spaces can be booked within seconds even by a first-time user.

Case study: Cerved >>

YAROOMS Mobile

Plan your day at the office **anytime, anywhere**.



Booking overview

See all upcoming reservations at a glance.

On-the-go scheduling

Books spaces in the office wherever you are.

Advanced space search

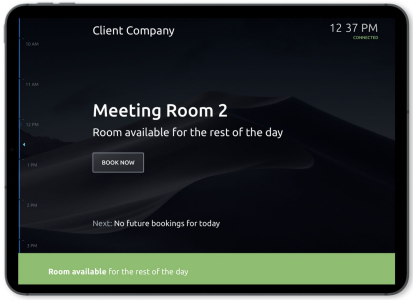
Dual monitor? Standing desk? Find and book spaces with the amenities you need.

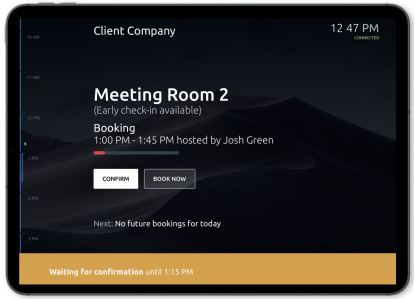
Check-in functionality

Confirm your presence in the office in a fast and convenient way.

Room panel

Hardware-agnostic digital signage application.





Real-time availability

Color-coded conference room availability status. See who booked the room, all the upcoming reservations, and find the next available slot.

Booking on the spot

Walking into an empty meeting room? Reserve it with a few taps directly from the door.

Avoid no-shows

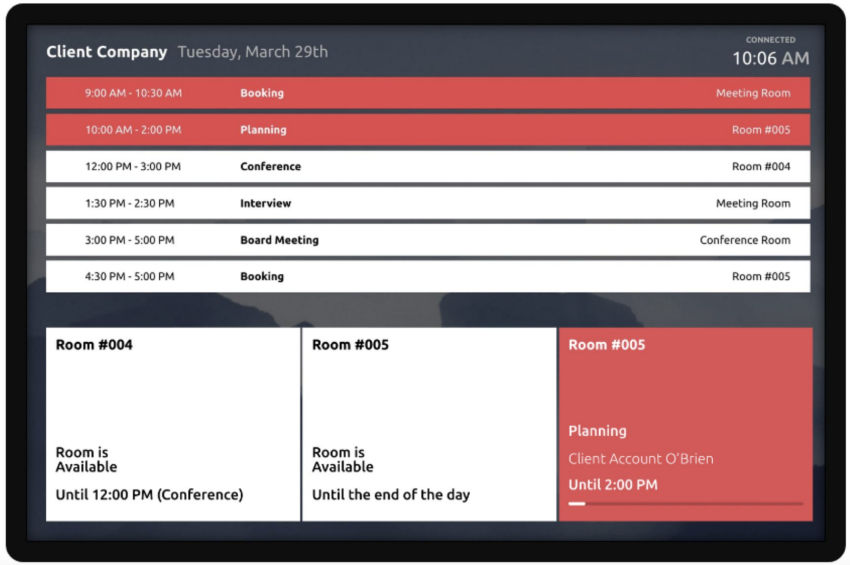
YAROOMS will end the room reservation if no user check-in is performed in time.

Room usage reports

Gain insights into office room utilization so you can optimize meeting spaces and plan for the future needs of your employees.

Lobby display

A smart & **easily customizable** digital lobby signage solution.



Real-time booking & event information

Display meeting room availability or upcoming events on office lobby screens in real time.

More connectivity in the workplace

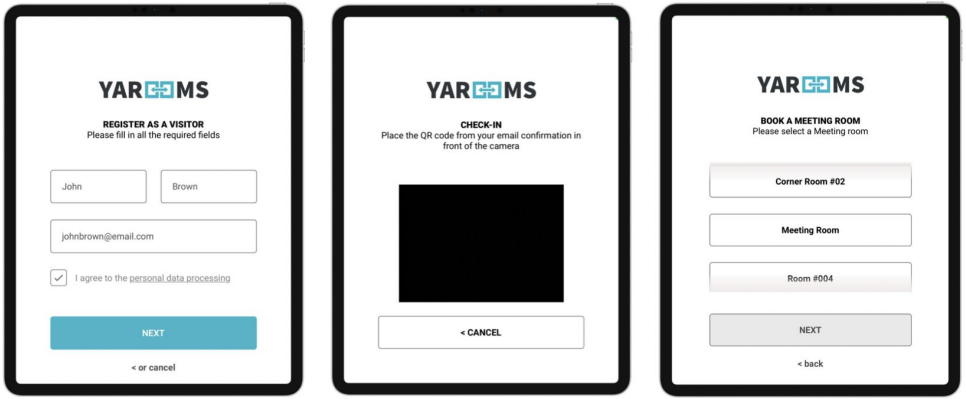
Keep everyone on the same page when it comes to meeting room schedules and enable faster, more efficient planning.

The power of first impressions

When potential employees, clients, and visitors walk into the office, they first step into the lobby or reception area. Use lobby display to make the right first impression: welcome your visitors with helpful information and consistent brand experience.

Digital reception assistant

A modern **visitor management** system.



Visitor management

A straightforward visitor registration system to make sure that your visitors don't waste time with hand-filled sheets at the reception.

Safety & compliance

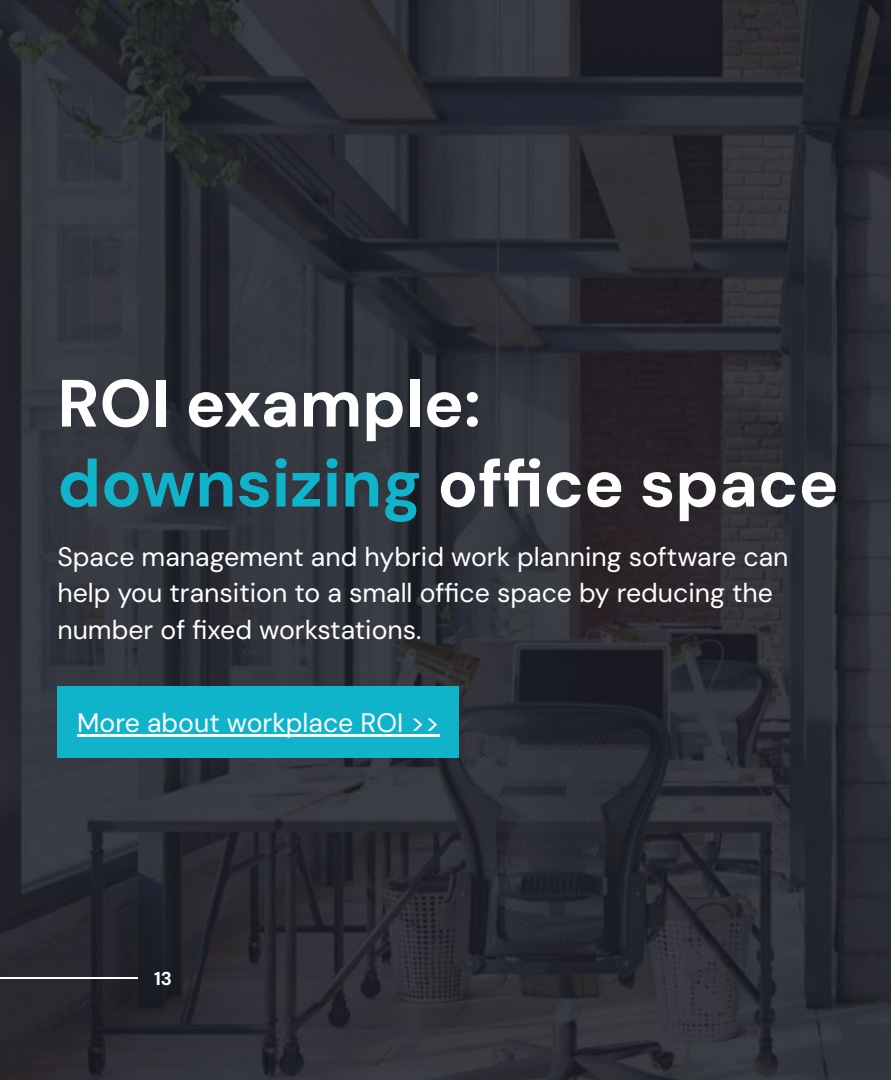
A short compliance questionnaire allows you to capture information necessary to stay in line with health, privacy, or security regulations.

Employee check-in & bookings

Employees can confirm their presence at the office by scanning a QR code and book workspaces directly from the lobby area.

Configurable interface

Easily configurable UI so you can welcome visitors with a touch of your brand.



ROI example: downsizing office space

Space management and hybrid work planning software can help you transition to a small office space by reducing the number of fixed workstations.

More about workplace ROI >>

1050 employees

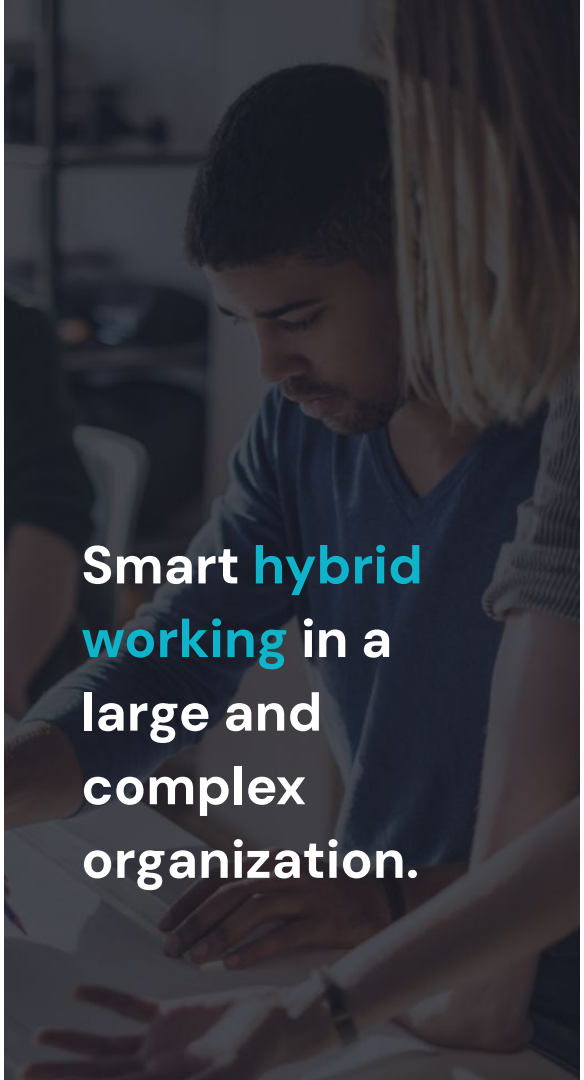
Employee: Desk Ratio	Number of desks needed	Annual cost for desk space	Potential yearly savings
1:1	1050	$6,982,500	$0
1:54	700	$4,655,000	$2,327,500
2:1	525	$3,491,250	$3,491,250
2,3:1	457	$3,039,050	$3,943,450
3:1	350	$2,327,500	$4,655,000
4:1	263	$1,748,950	$5,233,550
5:1	1:1	$1,396,500	$5,586,000

Higher Employee: Desk ratio → Fewer desks needed → Higher savings

SAIPEM

Saipem is an advanced technological and engineering platform for the design, construction, and operation of safe and sustainable complex infrastructure and plants. It is listed on the Milan stock exchange and operates in 70 countries around the world with 32,000 employees from 130 different nationalities. Their head office in Milan is a workplace for 4,000 employees.

Case study



Saipem is using YAROOMS for space booking and hybrid work planning.

"Whether it's about booking desks or creating hybrid work schedules - we now have efficient processes supported by reliable technology. We noticed an improvement in workplace productivity, as everyone can now easily reserve workspaces and plan their workweek. That, basically, was the key business need that YAROOMS successfully covered", - **Manuele Ascia, Project Manager, Digital Corporate, Saipem.**

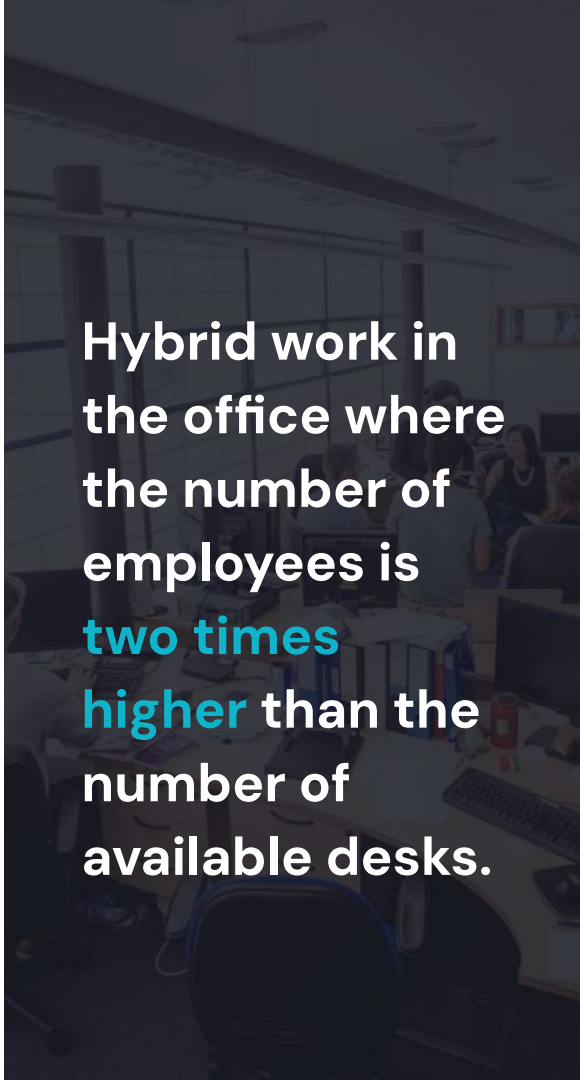
Dedalus

Dedalus is the leading healthcare IT provider in Europe and one of the largest in the world.

Today, the company employs more than 6,600 highly skilled people and has the largest software Research and Development team in the industry in Europe. Located in Vienna, one of the company's main R&D sites is a workplace for around 250 technical and 50 non-technical employees.

Case study



"With the relocation to the new office, we left behind everything we did not need anymore: from furniture to working arrangements. We were ready for a new, hybrid workplace, where employees can choose where they prefer to work—at home or in the office. YAROOMS helped us to put it into practice. The solution makes everyone's lives easier with just a few clicks per day, and I am also very impressed with the responsiveness of the support team.", - **Kianusch Sayah Karadji, Technical Solution Manager, Dedalus**

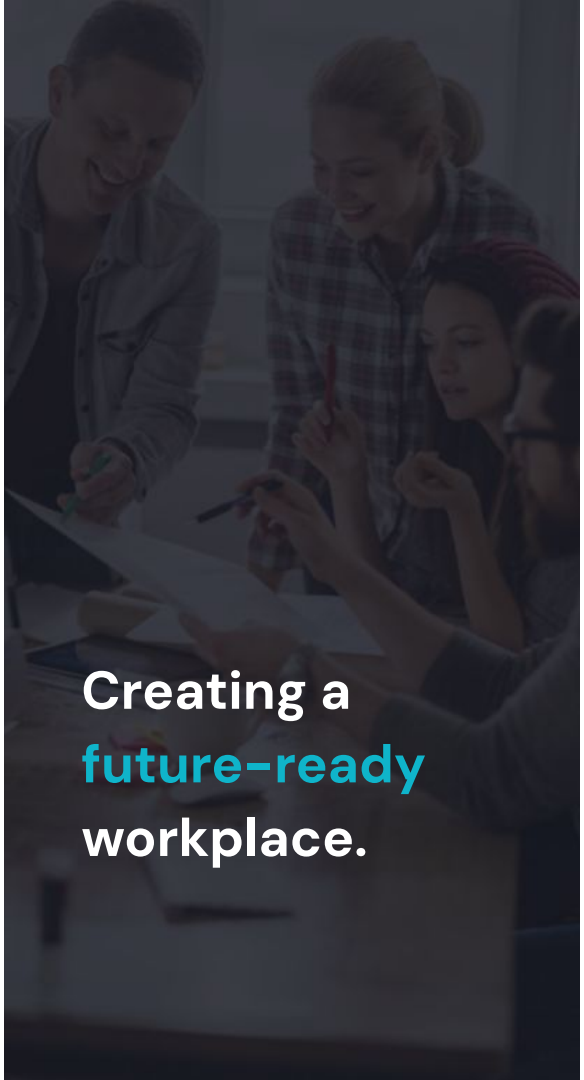
Dr. Martens is a rapidly growing footwear brand that is currently shifting more and more into D2C business and e-commerce. To keep up with the pace of growth, the company is actively building up its competencies and capabilities. One of such internal initiatives is creating a future-ready workplace.

Case study



Creating a future-ready workplace.

"As we expand with the business, we want partners that can grow with us. And we really appreciate your flexibility and adaptability. If we have to bring in more desks, renumber or relocate them, change the meeting rooms or office maps, we can be sure that the YAROOMS team will do it promptly and professionally", - **Richard Coope, Future-Ready Workplace, Project Manager, Dr. Martens**
