

Microsoft Dynamics 365 Finance & Operations: 2-Weeks Comprehensive Assessment

Are you getting the most out of your Dynamics AX/365 Finance & Operations (F&O) solution? Is it crucial that your business applications are reliable and don't suffer from disruption? Domain 6 understands the importance of ensuring that your Dynamics AX/365 F&O solution is always available, and you don't experience downtime, outages or performance issues. Domain 6 is your trusted partner to ensure continuous availability of your critical business applications.

During the assessment, Domain 6 experts evaluate your solution from both a technical and functional perspective. The technical component of the assessment includes a performance review, single point of failure analysis, integrations analysis and a review of ISV solutions. The functional component of the assessment covers the modules used, workflow utilization, security structures and organizational models.

DELIVERABLES

- System health report
- Technology assessment report
- Functional analysis report
