Support Every Employee in Your Organization with Real Estate Operator Agent

Property Management

- Efficiently manage and track property information, characteristics, and lease status with Copilot's intuitive interface.
- Customize Real Estate Operator Agent to manage and analyze your property data, providing a comprehensive, centralized point for accessing information and insights about your assets.

Tenant & Lease Management

- Track and manage lease agreement information for all properties, providing summaries and detailed information on terms such as rent, lease duration, and renewal options, to reduce search time and enhance efficiency.

AI-Powered Insights

- Gain a comprehensive 360-degree view of property, rent rolls, and lease agreements with Copilot, providing a holistic understanding of property performance, occupancy rates, and lease terms.
- Monthly analysis of rent rolls and operation expenses on a summarized and granular level.

Automation Efficiency

- Benefit from Copilot's ability to analyze property data and automate insights, providing actionable recommendations and streamlining operations to reduce manual effort.

Why Choose Real Estate Operator Agent

Industry Expertise: Developed by Domain 6, experts in real estate technology solutions.

Integrated with Microsoft Dynamics 365: Seamlessly integrates with Dynamics 365, providing a unified experience across all business functions.

Scalable and Flexible: Suitable for small to large real estate enterprises, with customizable features to meet your business needs.

Why Choose Domain 6 as Your Digital Transformation Partner
