## Revolutionizing the school to work transition for better social and economic outcomes

### About Year13

Year13 provides an **AI-powered Career Coach** that delivers personalised, scalable career guidance to young people, helping governments and educators drive **better engagement, outcomes, and workforce alignment**.

### What we offer

Year13's AI Career Coach is a **student-first** platform that delivers personalised, scalable guidance to help young people explore pathways and build future skills. Integrated with Microsoft Azure, it supports **data-driven engagement, equity in access, and workforce readiness at scale**.

### What our customers are saying:

“Partnering with Year13 has been a game-changer for Communities in Schools of North Carolina. Their innovative approach to bridging the gap between education and employment aligns perfectly with our mission to support students' success.” Jill Cox, CEO, Communities in Schools North Carolina
