## **Microsoft Power Platform**

The low-code platform that spans Office 365, Azure, Dynamics 365, and standalone applications. Innovation anywhere. Unlocks value everywhere.

## **Power Platform Services**

Seamless Dynamics 365, Office 365, and Azure integration along with connectors to more than 275 data sources

### **Power Apps**

- Build highly customized apps with data from one or multiple sources
- Generate immersive modeldriven apps
- Consume fully accessible apps across web and mobile, embedded or standalone, on any device

### **Power Automate**

- Automate and model business processes across your apps and services
- Form simple automations to advanced scenarios
- Trigger actions, grant approvals, and get notifications

### **Power Bl**

- Connect to all your data and Enable subject matter get a consolidated view across your business through a single pane of glass
- Create ad-hoc analysis, live dashboards and interactive reports
- Build smart apps with insights and drive actions

### **Common Data Service**

- Jumpstart apps with an extensible data model with business logic, security and integration
- Support all your data, relation data, file and blob storage, logs and search indexing
- Effortless Dynamics 365, Office 365 and Azure integration as well as powerful integration capabilities

### **Data Connectors**

- Built in connectivity to 400+ cloud services, databases, APIs
- Seamless hybrid connectivity to on-premises systems via the onpremises data gateway
- Break down data silos by using multiple data sources in a single application

# Image: Control of Contro

### **AI Builder**

- Leverage predictions directly from CDS across Power Apps, Power Automate, D365, M365
- Prediction using Binary Classification – predict and classify fields in CDS
- Forms processing & object detection using camera & image control

### Portals

- Create multilingual, responsive websites to engage with internal and external customers, partners and employees
- Use WYSIWYG designer to create website content and enrich with CDS/Dynamics data using forms, views, charts, dashboards
- Pro-dev extensibility and templating capabilities to design complex business processes

## Dataverse: put your data to work

2				
				7
	Υ-		_	1
	ð	-	Ð	

Provides an "out-of-the-box" data store for Microsoft apps and custom business apps

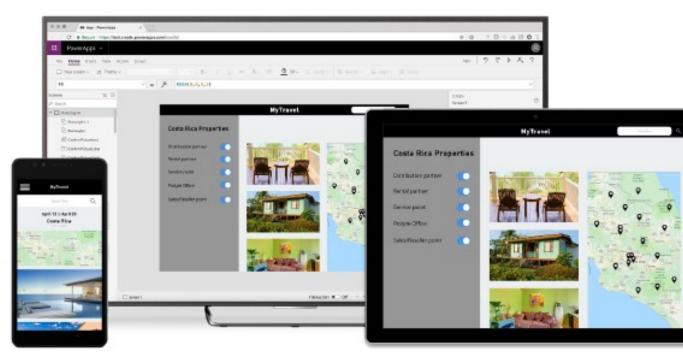

Dynamics 365, Office 365, and Azure data is available, augmented by industry partners

Jumpstart apps using a standardized data model with business logic, security, and more

Extend to your own needs and integrate across your apps and services

Enterprise-grade | Cloud and on-premises connectivity | Pro-developer extensibility

## Cloud and on-premises: connectivity

Built-in connectivity to 350+ cloud services, content services, databases, APIs, etc.

Seamless hybrid connectivity to on-premises systems via the on-premises data gateway.

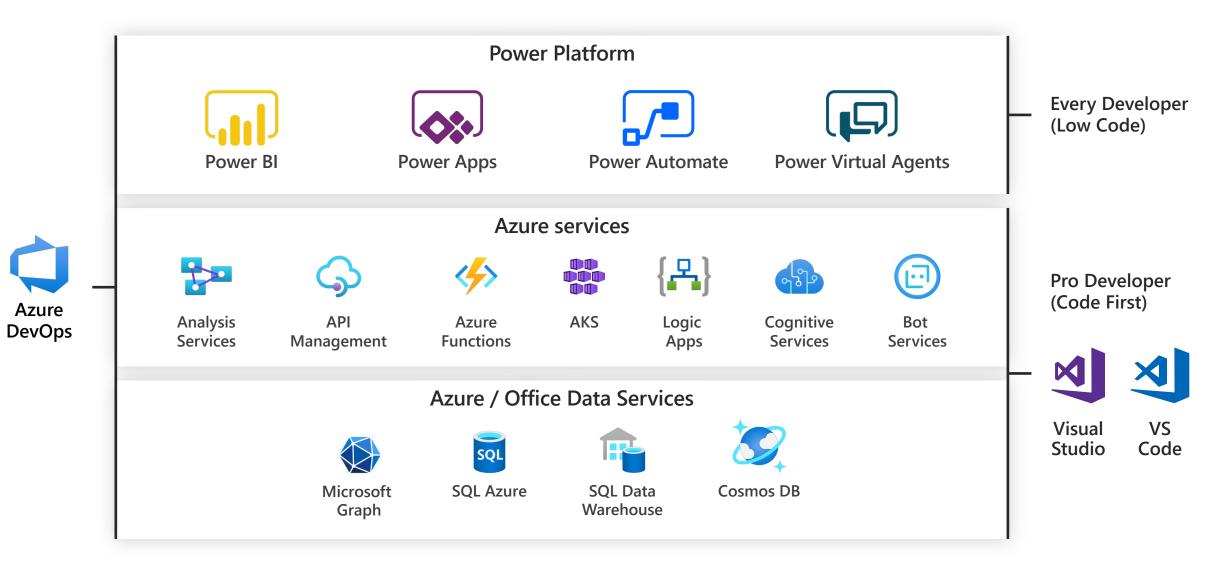

Break down data silos by using multiple data sources in a single application.

## Develop faster than ever before

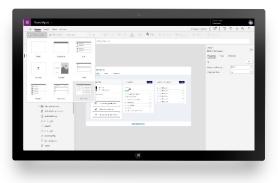

Pro Developers + Microsoft Power Platform = No Limits

## **Integrated with Office 365**

Publish Power Apps as a SharePoint web part or create a custom SharePoint list experience.

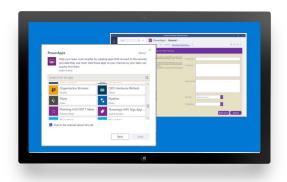

Use Office 365 data through built-in connectors and Office 365 screen templates.

Build a Power Apps app from an Excel sheet on OneDrive.
