How the YubiKey works

Register your YubiKey

Insert YubiKey & touch

Tap YubiKey to device

Integration with Microsoft product:

Microsoft Entra ID

What customer program is the integration solving:

Phishing emails that are targeting credential theft to access and steal confidential data which require stronger authentication to prevent unauthorized access.

Partner product value proposition statement:

Yubico, the inventor of the YubiKey, sets global standards for affordable, easy to use multi-factor authentication that can be used everywhere for secure access to computers, networks, and online services. The YubiKey is portable across devices with USB and over NFC.

Better together because:

When FIDO2 enabled YubiKeys are deployed in multi-factor authentication with Entra ID, the organization protects against phishing and man-in-the-middle attacks, without compromising on usability. Provides secure access to shared computers, networks and online services.

Product pricing model:

The YubiKey 5 Series range in price from \$45 - \$60 (USD)

Required Microsoft license:

Windows 11, Entra ID, and any other productivity/collaboration suites enabled for a modern desktop experience.
