

**DOCUMENTS IN.
INSIGHTS OUT.
MAGIC?
NOPE JUST ZARDOX.AI**

Enterprises struggle to scale while processing documents manually.

Templatized OCR software doesn't work for unstructured documents.

Intelligent data capture, workflow automation, and analytics from unstructured documents.

Data Capture

Workflow Automation

Insights

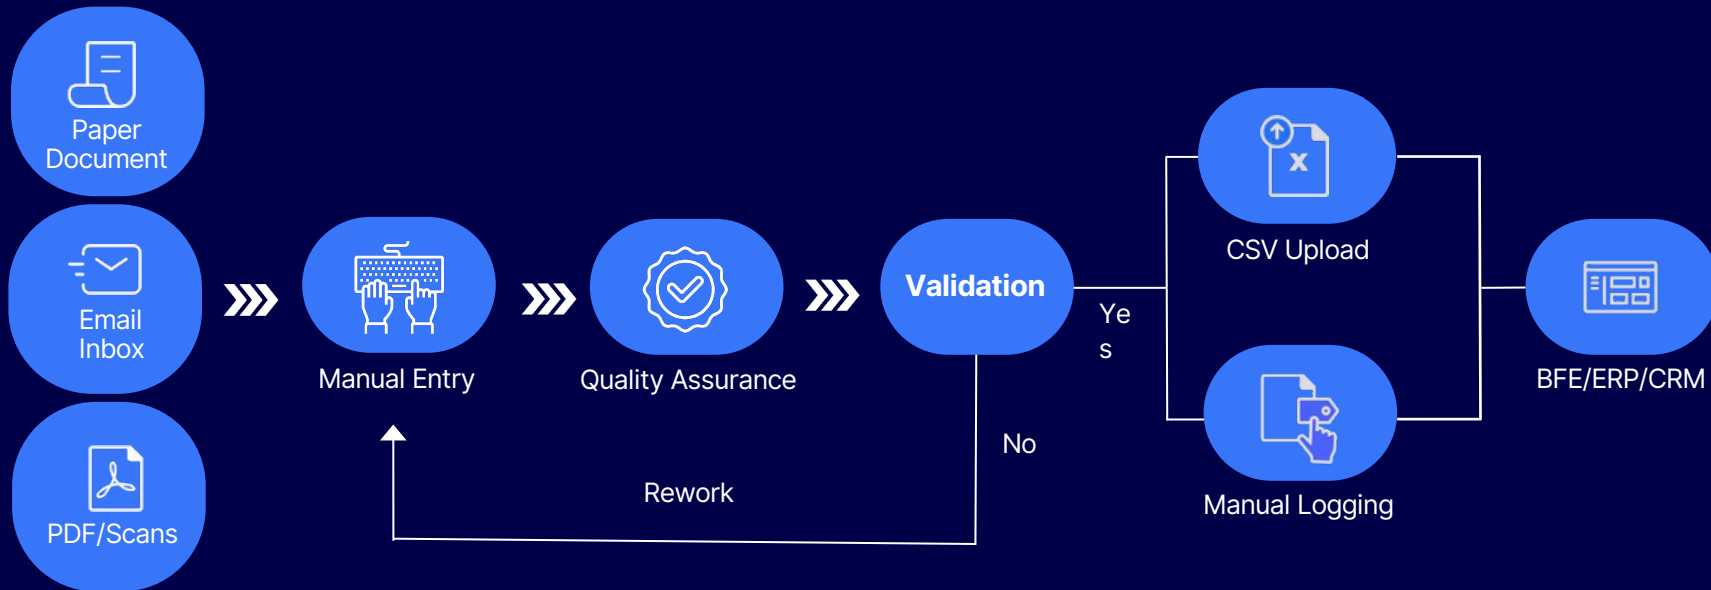

Document processing before ZARDOX

Time to process: 1 or 2 days

Error-prone: Needs QA

High Costs: Rework & Manual Entry

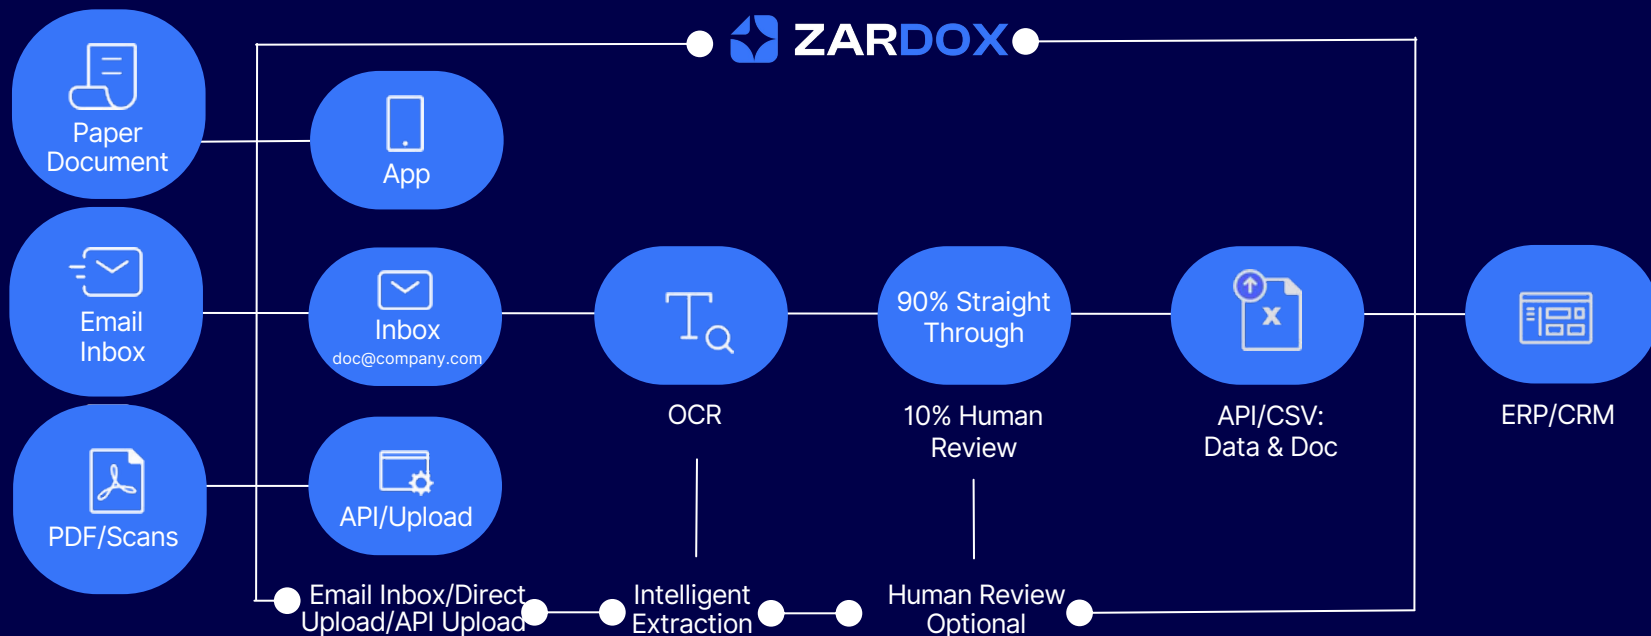

Ingest, Classify, Extract, Validate, Review, Decide in almost real time

Time to process: Real Time

Straight through processing: >80%

Cost Reduction: ~50%

Become digital & go from fully manual to 90%+ touchless document processing with ZARDOX

100x

Faster than a human at reading unstructured data. Get data back in less than 30 seconds.

90%

Touchless processing using smart validation rules

70%

Increase in efficiency by automating workflow end to end.

Go beyond traditional OCR, get **intelligent at doc processing**

No Template Setup

Works out of the box without the need to maintain template directory

Custom AI Models

Learns from customer data to create custom deep learning models

Confidence Scores

Provide field-level confidence score to decide transfer to QA & mark fields for audit

99% + Precision

No need for in-house verification team.

Validation Layer

Enhance data with our configurable rules and settings

Review Tool

Highly Intuitive review tool which highlights low conf. fields for human review

Really Fast Processing

Get data back in less than 1 min for straight through processing & 30 mins for human verification

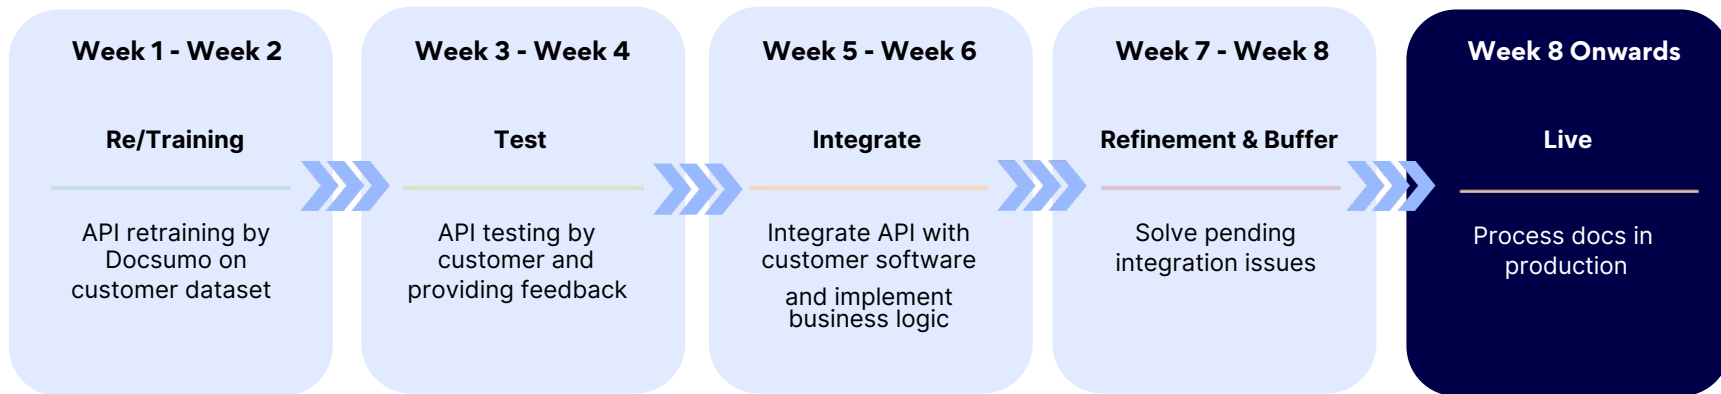

Analytics

Categorize table data and get summary analytics for automated decisions.

Rollout Plan & Timeline - 4 to 8 weeks to production
