

SAP on Azure Cloud

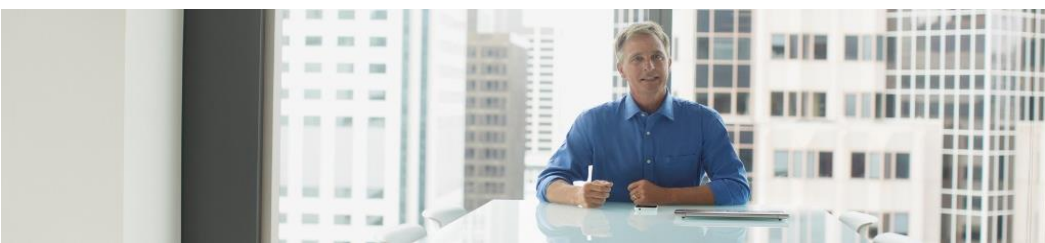

“SNAP! and SAP” TO AZURE Cloud

Zensar’s “SAP on Azure Cloud” can help you with seamless migration of SAP workloads to Azure Cloud or Azure stack. This includes Next Gen accelerators that fast-track the migration, well defined procedures to avoid common pitfalls, and procedures to meet security and compliance requirements.

SAP on Azure Services includes Homogeneous and Heterogeneous Migration, Rebuild , Single-Stage and Multi-Stage migration of SAP S4/HANA workloads to Azure Cloud.

- Experience **10x** improvements on application performance on Azure
- Experience “**Assured Migration**” for all heterogeneous and multi-stage SAP workload migration
- **Full Visibility** of Application Landscape using detailed Application Portfolio Rationalization Assessment
- Detailed **TCO analysis** to create a business case for **Application migration** to Azure Cloud or Azure Stack.
- **Turn-Key** migration factories for any kind of SAP workload migration

Next Gen Accelerators

ZenAMF™ Framework provides Turn-key migration factory for **Heterogeneous and Multi-Stage** SAP workload migration

ZenSMF™ Framework provides turn-key migration factory for **Homogeneous and Single-Stage** SAP workload migration

ZAPS™ Autonomous Platform provides quick discovery of existing SAP workloads and generate intelligent insights on target workload sizing over cloud based on current and anticipated SAPS

Wired Autonomics Platform™ to deploy any app on **Azure Cloud** and customer’s Private Cloud powered by **Azure Stack** and accessible from any device.

ZenGate™ Framework enables a faster approach and mechanism to implement **Azure Landing Zone**.

Service Offering

Advisory Services – Migration

- Assess | Analyze | Design | Plan

Migration Services

- Detailed Portfolio Rationalization Assessment using **ZAPS™** platform & right sizing & TCO powered by **Azure Migrate**.
- Setup Azure Landing Zone with **ZenGate™ Framework**
- End to end Pre and Post Migration Testing using **Continuously Orchestrated and Automated Testing Framework**
- Upgrade and Migrate SAP data to Azure using **ZenMOD** powered by SAP DMO .
- Automated upgradation and Migration from outdated operating system to latest over azure cloud using **ZenMOSS** platform
- Get Secured and compliant turn-key data lake over Azure cloud for SAP workloads using **ZenSLAKE**

Free 5 day Consulting for Azure Migration

Day 0: Objective setting and scope definitions are determined. Brief overview of the current SAP Estate the desired future state over cloud
