

NAV to business central migration assessment

Business Central

Still running Microsoft Dynamics NAV on-premises?

Zenzero's free **NAV to Business Central Migration Assessment** gives you a clear understanding of migration cost, risks, and timeline using our proprietary toolkit and deep BC expertise →

WHAT WE DO

- A **technical review** of your current NAV modules and environment
- **Customisation and data migration challenges** identified
- Clear **migration strategy** upgrade, re-implementation, or hybrid
- **High-level cost & effort estimates**, including licensing
- A **Cloud readiness score** for Dynamics 365 BC

WHY IT MATTERS

- A practical insight into the **NAV → BC migration journey**
- Early visibility on blockers or opportunities in your stack
- A **pre-migration roadmap** ready for stakeholders or decision-makers
- A head-start regardless of which implementation partner you choose
