Data estate modernisation

Data & BI

Legacy systems and manual workflows often limit your data potential.

Zenzero's **Data Estate Modernisation** transforms outdated infrastructure into a **secure, scalable Azure cloud architecture** →

WHAT WE DELIVER

- A discovery document that details pain points, current state and business objectives
- A fully implemented Azure data platform that is secure, compliant and fully documented
- Optional ongoing support with agreed service levels and maintenance

BUSINESS ADVANTAGES

- A resilient and scalable data architecture with minimal upkeep
- Reduced risk, improved compliance and enhanced security
- Teams can access timely and trustworthy data

Starting at £10,000 per complexity, get in touch
