Data & BI

Need rapid insight into your data?

Zenzero's **Express Insights** delivers a working Power BI report from **your dataset and brief** – without requiring a long project timeline →

HOW IT WORKS

- Upload your data, such as a CSV or Excel file, along with a short business brief
- We'll then design, build, and send you a fully working Power BI report

WHAT'S INCLUDED

- A working Power BI report that shows your key metrics
- A walkthrough of our methods, design choices, and insights from your data
- A summary report with suggested next steps

WHY IT MATTERS

- It's a clear example of how modern analytics can help you make decisions faster
- It provides a strong base for your business to use Power BI more widely
- It builds a strong case for investing more in data-driven projects
