

Express Power BI training

Data & BI

Many organisations invest in Power BI but aren't achieving full adoption

Zenzero's **Express Power BI Training** is a **1-day hands-on workshop** (remote or on-site) for analysts and business users looking to embrace self-service BI →

WHAT YOU'LL LEARN

- Build and improve interactive Power BI reports
- Create engaging dashboards and publish them securely
- Understand how to model data efficiently and share reports

WHY IT WORKS

- Real-world exercises led by an instructor, tailored to your needs
- Optional modules where you can use your own data for a personalised experience

BUSINESS BENEFITS

- Your team will be more confident and able to provide data-driven insights
- Faster adoption of analytics tools across your organisation
- A stronger return on investment from your Power BI deployment
