

# Direct Routing as a Service for Microsoft Teams Calling

Simplified & Cost Effective Connectivity

ZIRO provides the most flexible and complete solution to connect Microsoft Teams to the PSTN creating a superior unified communications experience. ZIRO's fully managed Session Border Controllers (SBC) and carrier services provide the telephony support users need to make and receive calls using their familiar Teams interface.

## DIRECT ROUTING AS A SERVICE

ZIRO's provides a single, dedicated point of contact for support. Our managed SBCs can be customized to meet any compatibility challenges. ZIRO's DRaaS with Managed Services combine for a complete managed solution.

ZIRO's geographically and cloud meshed redundant architecture eliminat any single point of failure and provides greater than 99.99% availability. Private and secure voice transmission are encrypted using Transport Layer Security (TLS)/Secure Real-time Transport Protocol (SRTP).

# Direct Routing Plus

## Automated Porting & Provisioning

Are you tired of rejected port requests and lost days? ZIRO eliminates the back-and-forth with carriers, saving time, and reducing errors.

ZIRO's bulk provisioning migrates users into Teams. Reducing the time from hours to minutes.

## Extension Dialing

Enabling extension dialing in Teams is complex, requiring intricate rules across dial plans.

ZIRO enables effortless extension dialing without creating, copying, or maintaining rules, thanks to its unique call routing architecture.

## Legacy PBX Support

As you phase in Microsoft Teams, you may need to continue to support your legacy PBX.

ZIRO's Direct Routing has configurable SBCs to support legacy solutions and ease the burden of your migration.

Use Teams software clients for calling

Privacy and security (voice transmissions encrypted with TLS/SRTP).

Keep most existing headsets and devices.

Enterprise-grade availability greater than 99.999%.

Integrate call attendants, paging solutions, doorbell systems, faxing, etc.

Monthly contracts with discounts for annual and multi-year commitments.

Global dial plan support.

Single, dedicated point of contact for support.

Bring your own carrier or leverage ZIRO's carrier relationships (preferred rates).

Customize SBCs to meet any compatibility challenges.

Extensive call reporting.

Combine DRaaS with ZIRO's services for full-service support.

24/7 monitoring and management.

REDUCE RISK & COMPLEXITY

SAVE TIME & MONEY

FLEXIBILITY & SCALABILITY

**ZIRO = UC Confidence**
