ZOHO Forms

Smarter data collection — online, offline, on the go.

Zoho Forms helps you create forms that are both visually appealing and functional. Use your forms to collect payments, set up calculations, sync records to integrated Zoho apps, and more.

Theme builder

Our advanced theme builder helps you design forms that reflect your brand's personality.

Automation workflows

Advanced rules, skip logic, and multi-page forms ensure you ask the right questions to the right people, while providing your respondents with a seamless form filling experience.

Notification triggers

Email, SMS, and mobile push notifications keep you informed about submissions, tasks, and multi-level approvals.

Data tracking and analysis

Google Tag Manager and **UTM-based tracking** help you monitor your campaign's performance.

Customization

Fully customizable themes, downloadable PDFs, translation into 25+ languages, logos, and custom domains help align your online forms with your brand image. Take advantage of multiple embed options, like HTML and CSS, and a WordPress plugin to host your forms on your website.

Connect to your favorite apps

Zoho Forms integrates with your favorite apps to ensure smooth data flow, and make managing business processes simpler.
