Integrated Data Management with Azure Health Data Services

About ZS

ZS offers proven solutions that support end-to-end transformation, including strategy, tools and accelerators to support innovation at scale and deliver tangible business impact.

See what customers are saying:

"Achieving operational excellence at the pace we did allows a small company like Aerie to effectively compete in the marketplace with much bigger players. The sophistication of the robust, actionable platform that Aerie and ZS have built together is enabling our commercial organization to operate at a higher level."

– Tad Heitmann, Head of Communications, Aerie Pharmaceuticals

WHAT WE OFFER

Health plans need personalized and actionable insights to serve providers and members better.

ZS Integrated Data Management with Azure Health Data Services delivers healthcare analytics at scale using the ZS Common Components Framework (CCF).

The CCF framework combined with 35+ years of healthcare experience enables ZS to help clients realize 5-10x improved processing efficiency, better data quality, and up to 50% faster time to insights.

What differentiates ZS from other providers is our unique ability to deliver measurable impact through our technology, analytics, and consumer health and clinical industry expertise.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
