# OpenAI Workshop

OpenAI Workshop is a workshop to introduce the possibilities of ChatGPT, GPT-4 and LLMs for your experts, organized by Zure.

Zure will demostrate concrete use cases and show demos OpenAI and Azure data capabilities.

During the workshop, Zure professionals guide your experts through concrete activities related to OpenAI and GPT models in Azure, with your organization's data.

After the OpenAI Workshop your organization has gained more knowledge and seen concrete use cases for OpenAI models. And also information about which tasks are most suited for LLMs and how to deploy them securely.

## WORKSHOP

- Open AI Workshop is an 4 hour interactive workshop where Zure experts guide you on how to deploy and develop solutions with OpenAI models
- Find out the best practices to start using OpenAI in a secure way with your organizations own data
- The attendees can be business leaders or data experts, such as AI & ML professionals, data engineers and reporting experts
- Zure will bring 2-4 professionals to the workshop, present the tasks, and train & guide the attendees in executing the tasks
- Workshop can be held at the customer's premises, although Zure's office is an option. Online workshop is also an option, but for best experience live workshop is preferred.

## EXAMPLE WORKSHOP AGENDA

- 9.00 - 9.15: Welcome and introduction
- 9.15 - 9.45: Introduction to OpenAI
- 9:45 - 10:15: Best Practices for Using OpenAI with Your Organization's Data
- 10.15 - 10.30: Break
- 10.30 - 11.30: Practical tasks related to OpenAI and Azure data capabilities
- 11:30 - 12:00: Identifying Suitable Tasks for LLMs
- 12.00 - 12.45: Practical tasks related to OpenAI with own business use cases
- 12.45 - 13.00: Wrap-up and Q&A

## NEXT STEPS

- Plan and execute OpenAI & data projects with own experts and/or with the aid of Zure
