

# Purview for Data Security and Governance

Maximize your data governance with Zure's 3-week Microsoft Purview implementation. Our experts will streamline your data governance and optimize your Purview licenses, ensuring you understand and protect your organization's sensitive data across all locations.

## WHAT YOU GAIN

- Clear understanding of your data landscape to maximize the value of your assets.
- Identification and mitigation of risks with a tailored roadmap for improvement.

## OUR APPROACH

- Senior expert lead kick-off and targeted workshops.
  - Phase 1: Technical set-up of Purview for risk discovery and security checks.
  - Phase 2: Development roadmap prioritizing key actions for ongoing enhancement.

## GETTING STARTED

- Schedule the kick-off and workshops; we'll outline the resources.
- Expert guided license acquisition and assignment.
- Hands-on setup and configuration of Purview's automated features.
- Comprehensive analysis and recommendations.

## INVESTMENT

Estimated 23-30 hours at fixed price of €6500 + VAT.

Take control of your  
data security.
